THE BENGAL OFFICIAL RECORDS BILL, 1938.

A

BILL

to provide against the unauthorised publication of official records.

WHEREAS it is expedient to provide against the unauthorised publication of official records ;

It is hereby enacted as follows:—

Short title and commencement.

1. (1) This Act may be called the Bengal Official Records Act, 1938.

(2) It shall come into force on such date as the Provincial Government may, by notification in the *Official Gazette*, appoint.

Definitions.

2. In this Act the expressions "newspaper", "news-sheet" and "press" have the meanings assigned to them in section 2 of the Indian Press (Emergency Powers) Act, 1931. XXIII of 1931.

Prohibition of unauthorised publication of official records.

3. Whoever publishes in a newspaper or news-sheet or otherwise, by words or signs, written or spoken, any unpublished official record relating to any affairs of State or any matter derived therefrom or any comment thereon except with the previous permission of the Provincial Government or any authority empowered in that behalf by the Provincial Government, obtained in such manner as the Provincial Government may by notification prescribe, shall be punishable with imprisonment which may extend to one year or with fine or with both.

Explanation 1.—An official record communicated confidentially to any person before publication is an unpublished official record within the meaning of this section.

Explanation 2.—Where an offence under this section relates to publication in a newspaper or news-sheet, the editor thereof, the author of the offending matter and the keeper of the press on which the newspaper or news-sheet was printed are severally liable under this section.

Procedure.

4. (1) No Court other than a Presidency Magistrate or a Magistrate of the first class shall try an offence under this Act.

(2) No Court shall take cognisance of an offence under this Act except upon complaint made by order of, or under authority from, the Provincial Government.

(3) In addition and without prejudice to any powers which a Court may possess to order the exclusion of the public from any proceedings, if in the course of the trial of any person under this Act or of an appeal against a conviction thereunder, application is made by the prosecution, on the ground that the publication of any evidence to be given or of any statement to be made in the course of the proceedings would be prejudicial to the interests of the State, that the public shall be excluded during any part of the hearing, the Court may make an order to that effect, but the passing of sentence shall in any case take place in public.

The Bengal Official Records Bill, 1938.

(Clauses 5, 6.)

Power to declare security or press forfeited on conviction.

5. (1) Where a conviction under this Act relates to publication in a newspaper or news-sheet, upon such conviction the Provincial Government may, in respect of the press on which the offending publication was printed—

(i) where security has been deposited under the Indian Press (Emergency Powers) Act, 1931, by order declare such security or any portion thereof to be forfeited to His Majesty, or XXIII of 1931.

(ii) where security has not been so deposited, by order declare the press to be forfeited to His Majesty:

Provided that if the conviction is set aside on appeal, the order of forfeiture under this sub-section shall also be set aside.

(2) Where an order of forfeiture has been made under sub-section (1), the provisions of the Indian Press (Emergency Powers) Act, 1931 (except sections 23 to 27 thereof, both inclusive) shall, so far as may be, apply thereafter.

Power to exclude certain records from the operation of this Act.

6. The Provincial Government may, from time to time by notification in the *Official Gazette*, exclude any official record or class of official record from the operation of this Act.

STATEMENT OF OBJECTS AND REASONS.

A growing tendency has been noticed, both in the press and on the platform, to give unauthorised currency to the contents of unpublished state documents. This tendency has rendered imperative the necessity of taking legislative measures to suppress the dissemination in the press and on the platform of the contents of unpublished records of Government unless after due authorisation.

APPENDIX B.

(See rule 14.)

Rules for working settling tanks and slow sand and mechanical filters in waterworks in Bengal.*Settling Tanks.*

1. It is important that water drawn from the rivers of Bengal should have as long a settlement as possible before being passed on to slow sand filters, in order that the action of sunlight, the precipitation of suspended matter and the natural tendency to elimination of pathogenic bacteria may have their maximum purifying effect.

2. Settling tanks are worked either on (a) to continuous flow, or (b) the intermittent system. In the first system, the tanks are kept full, and the water is continually admitted at one end and drawn off from near the surface at the other. In order that this system may be properly used with slow sand filters, the unfiltered water pumps must be worked continuously throughout the 24 hours or the settling tank must be fed from a storage reservoir. When designed on the intermittent system, each tank in turn is filled and then kept full until the tanks filled before it are drawn down; the settled water is then decanted through a floating arm or similar apparatus until the tank is lowered to the lowest draw off level, when it is again filled.

The whole available storage capacity of settling tanks should always be used as far as possible. On the other hand care must be taken in tanks unprovided with fixed overflows not to fill them to a greater depth than they are designed for.

3. When a deposit of from 18 inches to 2 feet of silt has formed at the bottom, the tank should be emptied and cleansed out. This work must always be done in the dry weather and preferably at the end of October or as soon after as possible.

4. In the rains and when there is an excessive amount of suspended matter in the raw water, clarification will generally have to be assisted by the use of a coagulant. The precipitant most commonly used in Bengal waterworks is aluminoferric. This depends for its effective action upon the temporary hardness of the water. If more of the chemical is used than can be decomposed by the carbonates present, it will remain dissolved in the water and will be washed.

Generally speaking, not more than two grains of aluminoferric are required per gallon of water. Aluminoferric and sulphate of aluminum should always be ordered under a proper specification. Samples of each consignment of the precipitant should be sent to the Director of Public Health Laboratories for analysis to see if the samples conform to the specification. His advice will also be necessary from time to time as to the quantity of precipitant to be added to the water.

5. The aluminoferric must be added at the inlet end of the settling tanks. A solution of a fixed strength should be prepared and the rate of flow of the solution ascertained and regulated by experiment in cases where there is no automatic apparatus for its addition. The method of adding the salt in solid form by suspending in a basket is unsatisfactory and should not be adopted.

Slow sand filters.

6. The rate of delivery on to a sand filter is regulated by (a) the available head between the settling tanks and the inlet valve and (b) the amount the inlet valve is open.

The rate of flow through the filter depends upon (c) the resistance of the sand in the filter. In order to overcome this resistance a difference in level forms between the surface of water on the filter-bed and the water in the outlet well. This is called the filtration head. The longer the filter-bed is in operation, the greater becomes the resistance of the sand and consequently a larger filtration head is necessary to force the water through the filter.

The discharge from the outlet well to the clear water reservoir depends on (d) the amount the outlet valve is open or in the case of a telescopic outlet the extent to which the bell mouth is lowered.

It is obvious that these factors are mutually interdependent, for more water cannot flow out of a filter than is delivered on to it, nor than can make its way through the sand.

Factors (a) and (c) continually tend to vary, so (b) and (d) must also be altered from time to time in order to maintain a constant flow through the filter. In some filters the inlet is controlled by a ball valve which keeps the level of the water on the filters always the same. In this case, the flow through the filter is regulated by (d). In all filters the surface of the water on the sand should be always kept as nearly at same level as possible and filtration head regulated by the outlet valve or telescopic weir. The depth of water on the sand should not be less than 2 feet. Gauges measuring to the same datum should be fixed on the wall of the filter and in the outlet well so that the difference in level can be easily measured.

7. Filtration should be carried on continuously and as nearly as possible at the same rate, which should be between 3 or 4 inches vertical an hour. The rate of flow must on no account exceed the latter figure.

Where there is no direct method of measuring the flow of water through a filter such as an outlet gauge notch or a meter, it may be ascertained by closing the inlet valve and leaving the outlet valve open. The fall of the surface of the water in inches at the end of an hour will give the rate of flow per hour.

8. In a new filter or one recently scraped, the filtration head required will be very small but its increase will be rapid. In the usual way, a filter should be scraped when the filtration head reaches 18 inches. In certain cases it may be safe to exceed this limit, but before allowing a greater working head the advice of the Chief Engineer should be obtained.

Filters should not be scraped until it is necessary, for not only does frequent scraping increase the cost of operation but for some time after scraping the efficiency of the filters is reduced.

9. A filter must be scraped by carefully removing the slimy ooze which has formed on the top, together with about $\frac{1}{4}$ inch of sand. The sand removed may subsequently be used again if properly washed

in a sand-washer. In the usual way when the depth of fine sand is reduced to 18 inches it is time to replenish the filter. Before replenishing about two or three inches of sand is to be removed, clean washed sand is then to be added until the original thickness is obtained.

10. If the water filtered has been of a very bad quality or the filter has been mismanaged, or been long in use the whole filter may require to be renewed. In such case the advice of the Chief Engineer, Public Health Department, must be obtained, when full instructions as to the work required will be issued.

11. After a filter-bed has been scraped, replenished or renewed it should, if possible, be charged from below by admitting filtered water **very slowly until the surface is about three inches above the sand**; the filling can then be completed from above. If there is no arrangement for filling from below, the filling must be very carefully and slowly done from above.

After filling, water should be passed through the filter commencing at the rate not exceeding one inch vertical per hour and run to waste for 24 hours after scraping and 48 hours after replenishing. The rate of filtration should be increased gradually after putting the filter into use. If possible the maximum rate of flow should not be reached for four or five days. After complete renewal the filter must not be put into operation until the Director of Public Health Laboratories has analysed samples of the water and pronounced them safe.

12. Daily records must be kept in the filter-bed log book [P. H. D. Form No. 5 (Appendix A)] of the quantity of water filtered and the filtration head recorded at intervals of three hours throughout the day.

Mechanical filters.

13. For each installation of mechanical filters, rules for working must be obtained from the makers of the plant, but the following points must be attended to in all cases:—

(i) The efficiency of the plant depends upon the proper proportioning and correct addition of the coagulant. The actual amount of coagulant required depends on the design of the installation, the type of filter, the quality and hardness of the water and general local conditions. It will vary during different seasons of the year and can be best ascertained by experiment in actual working. Such experiments require scientific supervision and must be carried out under the instructions of the Chief Engineer, Public Health Department, who will when necessary take the advice of the Director of Public Health Laboratories on the subject.

(ii) The precipitant generally used is sulphate of alumina and this should be purchased under a proper specification of chemical composition. The precipitant is made up into a strong solution in large vats and added to the raw water by an adjustable apparatus.

The water so treated is then allowed to settle for sufficient time to allow the formation of optimism flock.

In cases where sedimentation continues for a considerable time after the coagulant has been applied, it may be necessary to add a small additional quantity of the chemical to the water immediately before passing it to the filters.

In pressure filters if sulphate of alumina is allowed to stand in the alum pots for any length of time there is a tendency for it to deposit and clog the small pipe leading to the filter inlet. In such cases the use of crystal potash alumina is recommended. If sulphate of alumina is used it is necessary to keep the solution stirred and also to examine the alum pipes to see that the flow is taking place properly. In any properly designed installation means are provided for testing the rate of flow through the alum pipe at any time.

Aluminoferrie and ammonia alum are not to be used in mechanical filters.

(iii) The rate of filtration should be kept as nearly as possible constant and must not exceed the rate for which the filters had been designed. All filters used on the gravity system are provided with automatic controllers, and these must on no account be tampered with or made to pass more water than intended.

(iv) The maximum filtration head permissible varies with different types of plant; it is usually not more than 10 feet. When the maximum head is reached, as shown by the indicator, the filter must be washed.

(v) Washing must always be done with filtered water. In the case of a battery of two or more pressure filters, they may be arranged so that one can be washed with filtered water from another. Washing must be continued until the waste water becomes quite clear. After washing, the filtered water must be run to waste for 15 minutes before connecting to the town. All valves operated during the process of washing must be opened and closed slowly.

(vi) The addition of coagulant throughout the filtering process is unnecessary. After four hours of filtration with coagulant a sufficiently impervious layer is formed on and in the upper layers of sand to stop the passage of bacteria and filtration can then be carried on for two days or more without the addition of any more alum.

(vii) Daily records must be kept in the filter log book [P. H. D. Form No. 5A (Appendix)] of the quantity of water filtered, the amount of sulphate of alumina used, the hours during which filtration has been carried on the filtration head (recorded at intervals of three hours), the length of time taken to wash each filter, and the hour at which it was washed.

Minute of dissent by Maulvi Md. Israil, M.L.A.

I beg to sign the report of the Select Committee subject to the following note of dissent:—

According to rules 61 and 62 of the Bengal Legislative Assembly Rules and Standing Orders it is quite evident that the Select Committee must scrutinise the provisions of the Bills referred to it and submit a report thereon embodying the additions and alterations suggested and the report of the Select Committee with the amended Bills, shall then be published in the local official gazette. The present report of the Select Committee having failed to comply with the aforesaid rules is *ultra vires* and irregular and illegal. The Select Committee, has failed to discharge the duties entrusted to it by the House moreover the Government Bill on the subject in consideration of which the Select Committee recommended for the dropping of the Bills referred to it, is clearly hit by section 100, sub-section (1) of the Government of India Act, 1935, but from the wording of the above section it appears that the Bills referred to the Committee are immune from such limitation as that section is applicable to the making of laws but not to the amendment of the existing laws.

Minute of dissent by Mr. Ahmed Hosain, M.L.A.

I sign the report of the Select Committee subject to the following note of dissent:—

According to rules 61 and 62 of the Bengal Legislative Assembly Rules and Standing Orders, it is obligatory on the part of the Select Committee to consider the Bill referred to it on merits and to embody its deliberations upon the same, clause by clause, in the form of a report. But in this case, the Committee has chosen, simply to refuse to consider the Bill, in consideration of the fact, that there is the likelihood of a comprehensive Government Bill on the subject being introduced. In this the Select Committee has acted (in our view of the matter), *ultra vires* and in clear contravention of rules as well as the mandate of the House which appointed it.

This action of the Select Committee, to my mind will also have the further effect of putting off some very much needed relief to the poor agricultural debtors which the private member's Bill contained, and which the working of the Money-Lenders Act during these years, has shown to be immediately and urgently necessary. Because the Government Bill has yet to pass through the initial stages involving unavoidable delays, whereas, had the Select Committee reported to the House, upon the Bill referred, the private Bill in all probability would have passed this session.

No. 4677L.C.—29th August 1938.—In pursuance of the provisions of rule 21 of the Bengal Legislative Council Rules, as modified and adapted under section 84(3) of the Government of India Act, 1935, the following Bill which was introduced in the Bengal Legislative Council on the 22nd August, 1938, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE INDIAN REGISTRATION (AMENDMENT) BILL, 1938.

AN
ACT

WHEREAS it is expedient to make better provision for the copying of documents for registration and for that purpose further to amend the Indian Registration Act, 1938 ;

It is hereby enacted as follows :—

4. After Part X of the Indian Registration Act, 1908 (hereinafter referred to as the said Act), the following Part XI shall be inserted, namely :—

PART XI A.

Of the copying of documents by means of photography.

Application of this part. 70A. This Part shall apply to those areas only in respect of which a notification is issued by the Local Government under section 70C.

70B. For the purposes of this Part “ Photo-Registrar ” means any person appointed by the Local Government to perform the duties of Photo-Registrar under this Part.

Documents may be photographed in areas notified by Government. 70C. (1) The Local Government may, by notification in the *Calcutta Gazette*, direct that in any district or subdivision specified in the notifications copies of documents admitted to registration under this Act, shall be made by means of photography.

(2) On the issue of such notification it shall be translated into Bengali and shall be posted in a conspicuous place at the Registration offices affected by the notification.

breaking any seals, the thread or ribbon where-with the pages of the documents are sewn together in order to separate the pages of the documents, and, as soon as the document has been photographed, he shall rebind the document exactly as before and if he has cut the thread or ribbon, shall seal it over the joint with his seal :

Provided that before transmission of the document to the Photo-Registrar, the presenting of the document may require the registering officer to have it copied by hand under section 52 on payment of an additional copying-fee.

- (c) There shall then be prepared and preserved the negative and at least one photographic print and to each such negative and print the Photo-Registrar shall affix his signature and seal in token of the exact correspondence of the copy to the original document, as admitted for registration.
- (d) One set of such prints arranged in the order of their serial numbers shall be made up into books and sewn or bound together. To each such book the Registrar or Sub-Registrar shall prefix a certificate of the serial numbers it contains, and the books shall then be preserved in the records in such suitable place as the Inspector-General may prescribe.
- (2) All words and expressions used in the Act with reference to the making of copies of documents by hand or the entering or filing of documents or memorandum in books provided under section 16 shall, so far as may be necessary, be construed as referring to the making of such copies by means of photography or the entering or filing of documents or memoranda in books made up of copies prepared by means of photography.
- (3) Where this Part applies the sections mentioned below shall be deemed to be modified as follows :—
 - (a) In section 19, the words “ and also by a true copy ” shall be omitted ;
 - (b) sub-section (4) of section 21 shall be omitted ;
 - (c) the words “ according to the order of its admission ” occurring in clause (c) of sub-section (1) of section 52, shall be omitted ;
 - (d) section 53 be omitted ;
 - (e) in sub-section (1) of section 60, the words “ and page ” shall be omitted ;
 - (f) sub-section (1) of section 61 shall be omitted ;
 - (g) in sub-section (1) of section 62—
 - (i) for the word “ transcribed ” the word “ copied ” shall be substituted ; and
 - (ii) for the words and figures “ copy referred to in section 19 ” the words “ photograph of the original ” shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

With the advance of science, photography has provided us with a better method of preparing exact copies of documents than mere transcriptions by hand which leave room for error according to the mental and physical powers of copists by hand or by type-writing or by printing. In India advantage has been taken of this process of preparing photographic facsimilies in the Bombay Presidency.

There is no reason why Bengal should lag behind in the matter. The provisions of the Bill have, therefore, been adapted from the provisions of the Bombay Registration (Amendment) Act of 1930 (Act XVII of 1930).

No. 4678L.C.—29th August 1938.—In pursuance of the provisions of rule 21 of the Bengal Legislative Council Rules, as modified and adapted under section 84(3) of the Government of India Act, 1935, the following Bill which was introduced in the Bengal Legislative Council on the 22nd August, 1938, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

**THE BENGAL JUVENILE SMOKING (AMENDMENT)
BILL, 1938.**

**A
BILL**

to amend the Juvenile Smoking Act of 1919.

WHEREAS it is expedient further to amend the Bengal Juvenile Smoking Act, 1919, in the manner hereafter appearing; It is hereby enacted as follows:—

This Act may be called the Bengal Juvenile Smoking Amendment Act, 1938.

1. The sub-sections (2) and (3) of the Bengal Juvenile Smoking Act of 1919 shall be deleted, in its place the following sub-section as sub-section (2) shall be substituted—

“(2) It extends to the whole of Bengal.”

2. In section 2 of the said Act after clause (c), the following shall be added as clause (d):—

“(d) ‘Public place’ means any place to which the public for the time being has access whether on payment or otherwise and includes a railway station and a railway carriage.”

3. Section 4 of the said Act be omitted and the following shall be added in the said Act as section 4:—

“4. Whoever sells or gives or attempts to sell or give to a child apparently under the age of sixteen years any tobacco or cigarette whether for his own use or not, shall be liable on conviction by a Magistrate in the case of first offence to a fine not exceeding ten rupees and in the case of a second offence to a fine not exceeding twenty rupees, and in the case of a third offence or subsequent offences to a fine not exceeding fifty rupees.”

4. Section 5 of the said Act shall be omitted and the following shall be added as section 5 and section 6 and the existing section 6 shall be renumbered as section 7:—

“5. If any boy apparently under the age of sixteen years be found smoking tobacco or cigarette in any public place, it shall be lawful for any chaukidar, dafadar, teacher of a recognised school, or affiliated college, member of a municipal board, member of a district board, member of a union board, Executive Officer and Councillor and Aldermen of Calcutta Corporation, registered medical practitioners, legal practitioners, any municipal or district board officer drawing a monthly salary of not less than Rs. 25 or any Magistrate to seize such tobacco or cigarette and destroy it.”

“6. The local Government may confer on any bench of Magistrate invested with the powers of a Magistrate of the second or third class power to try summarily any offence under this Act.”

STATEMENT OF OBJECTS AND REASONS.

It is a fact that the Bengal Juvenile Smoking Act of 1919 though still in force has become a dead letter owing to the defects inherent in it. So it is desirable that it should be amended in such way that it may be worked for the benefit of persons concerned. So I propose to give power to all persons enumerated in the proposed section to seize and destroy tobacco.

STATEMENT OF AIMS AND OBJECTS.

The aim and object in introducing this important piece of legislation is to regulate the retail and wholesale prices of articles of merchandise in shops and to save middle class shopkeeper from the evil effects of unhealthy and unrestricted competition in the trade. Unsteady prices and cut-throat methods of under-selling have driven many respectable and flourishing firms and persons out of the market and deprived many a self-respecting and honest citizens of their legitimate livelihood.

Such legislation is as much necessary in the interests of the ordinary citizen of the province as in that of the shopkeeper and the trader. Uncertain prices and higgling mean time lost and tempers frayed, and this loss of time and nervous energy is a definite drain upon the economic resources of the community.

The provoking system of bargaining, dishonest and ambiguous nature of prices ruling in many shops often scare away genuine would-be buyers to the detriment of trade. It entails unnecessary strain on the distributive and allied workers in shops and very often results also in loss of trade and confidence of the buying public. These unbusiness-like methods in trade have also lowered an average shopkeeper in the estimation of foreign buyers and led them to form a low opinion of the Indian character.

It is, therefore, imperative that the State should control the retail and wholesale prices of various commodities and manufactured articles by some sort of legislation to improve the present deplorable conditions prevailing in the general trade of the province.

This piece of legislation is only the first step in the direction of improving the retail and wholesale trade of our province. The fixation of prices in shops will increase and improve the general turn-over of business and thus contribute much to the prosperity and happiness of our business people, particularly the middle-class. It will restore public confidence and do away with the necessity of unhealthy and insensate competition, and by saving the time now lost in higgling, contribute to the economic improvement of the province.

NOTIFICATION.

No. 4680L.C.—29th August 1938.—In pursuance of the provisions of rule 21 of the Bengal Legislative Council Rules, as modified and adapted under section 84(3) of the Government of India Act, 1935, the following Bill which was introduced in the Bengal Legislative Council on the 22nd August, 1938, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

**THE PRESIDENCY SMALL CAUSE COURT (AMENDMENT)
BILL, 1938.**

WHEREAS it is expedient to make better provisions for the revision of the decisions made by a Presidency Small Cause Court established in the town of Calcutta ;

It is hereby enacted as follows :—

1. This Act may be called the Presidency Small Cause Court (Amendment) Act, 1938 ; and it shall come into force on the 1st day of April, 1939.

2. In section 36, substitute the word " revision " for the words " new trial ".

3. For the present section 38, the following section shall be substituted :—

" 38. The High Court in its Appellate Side, for the purpose of satisfying itself that a decree or order made in any case decided by the Small Cause Court was according to law, may call for the case and pass such order with respect thereto as it thinks fit."

STATEMENT OF OBJECTS AND REASONS.

Under the present provision of the law litigants aggrieved by a decision of the Presidency Small Cause Court Judge have a remedy by asking for a new trial by a Full Bench of the Small Cause Court and another by petition for revision by the High Court. In practice the first remedy is often illusory and involves waste of public money. The second is too expensive for an aggrieved but otherwise poor suitor, in view of the fact that the revision petition is entertainable on the Original Side of the High Court where the cost is notoriously high.

The present amendment is sought to abolish the present remedies and bring the law on the same footing as that provided by the Provincial Small Cause Court on the matter.

**THE BENGAL ESTATES PARTITION ACT (ACT V OF
1937) AMENDMENT BILL.**

WHEREAS it is expedient to further amend the law relating to the Partition of Estates ;

It is hereby enacted as follows :—

1. This Act may be called the Estates Partition (Amendment) Act of 1938.

2. It shall come into force on the day of publication in the *Calcutta Gazette*.

3. Insert the words "whether paying revenue or not" after the word "lands" and before the word "which" in line 1, and insert "Revenue-free" after the last word "Revenue" in clause IX of section 3, in page 3 of the Manual.

4. Insert the following after the words "has knowledge" in line 8 of section 19(I), page 9 of the Manual :—

"The rent roll is not required to be filled with the application in cases where the record-of-rights have been prepared and finally published"

5. Insert the following after the word "partition" at the end of clause (c) in section 50, page 19 of the Manual :—

• "But this is not to be done in cases where the record-of-rights have been prepared by the District Settlement Authorities."

6. Insert the word "certified" before the word "Extract" wherever it occurs in clauses (a), (b), (c) and sub-section (2) of section 50, page 22 of the Manual.

7. Insert the following as a new section 93(A) after section 93, page 32 :—

"The Collector shall rectify any mistake or irregularity which may arise in the proceedings at any stage."

STATEMENT OF OBJECTS AND REASONS.

1. There is no provision in the Estates Partition Act for the partition of the lands of the revenue-free estates. The proprietors of the big revenue-free estates suffer much in realising rents and cesses from the common tenants as well as in the payment of cesses. So there should be a provision for the partition of these estates.

2. Rent roll of the estate is not required to be filed with the application of those districts where the record-of-rights has been prepared. Generally it is not done, as the record-of-rights shows all the particulars.

3. In cases where the record-of-rights has been prepared and finally published, the issue of notices upon the proprietors of the adjoining estates is not required, as the boundary of each village has been settled by the Settlement Authorities. It has been found in experience that after the Settlement Operations there exists no boundary dispute between the proprietors of the adjoining estates and they never appear to dispute the possession of the estate under partition, moreover, it takes lots of time to serve the notices on the proprietors of the adjoining estates and it also increases the cost of the estate under partition.

4. If the extracts supplied to the proprietors be not certified, they cannot be used as evidence in any court of law and the proprietors have to take separate certified copies from the original.

5. There is no provision in the whole Act under which the Collector can rectify any mistake or irregularity which may arise in a partition proceeding.

The aim of this Bill is to remove these difficulties and for this purpose this Bill is introduced.

STATEMENT OF OBJECTS AND REASONS.

The practice of taking and giving "Panas" as a consideration for marriage is widely prevalent in Bengal and is proving ruinous to society as the fathers of girls are being rendered paupers to meet the extortionate demands of bridegroom's parties. Public conscience has been deeply stirred by the suicide of Snehalata and other young girls whose fathers were embarrassed owing to their inability to pay the "Barapanas". Many other communities again are becoming extinct as their members cannot marry without paying heavy "kanyapanas" (bride-money). The Bill seeks to put a stop to both these practices. A similar Bill has been introduced in the Bihar Legislative Council and the present Bill is modelled on that with suitable variations.

5. Section 7 of the said Regulation shall be omitted and the following section 7 shall be substituted in its place, namely :—

“ 7. A division of a *patni* tenure or distribution of rent payable in respect of a *patni* tenure may be affected by—

(1) all co-sharer *patnidars* amicably with the consent of the zamindar, or

(2) on application before the Collector making the zamindar and other co-sharer *patnidars* parties to the proceeding. On receipt of the application, the Collector shall serve a notice on the zamindar and on the other co-sharer *patnidars* fixing a date for hearing of the application.

On the date so fixed or any other subsequent date the Collector, after hearing the objections, if any, shall allow the application dividing the tenure or distributing the rent unless such division results in the creation of a tenure less than an acre in area or the distribution of rent results in bringing a portion below rupees twenty.

Every order of the Collector directing division of the tenure or distribution of rent shall also direct payment by the applicant to the zamindar a mutation fee being equal to ten per cent. of the *jama* falling to the share of the applicant but in no case such fee shall be less than rupee one or more than rupees one hundred.

It is also provided that such division of tenure or distribution of rent shall not in any manner affect the other terms of the engagement with the zamindar and every such divided or distributed portion shall be governed by the provisions of the said Regulation subject to the terms of the original engagement ”.

6. In section 8 of the said Regulation at the end of the second clause, insert the following paragraph, namely :—

“ The zamindar shall also publish the sale of the tenure by sending in the prescribed form by registered post to all the defaulting *patnidars*, a concise statement containing a specification of the balance due to him and other particulars required to be given in the notice under other paragraphs of this clause. ”

7. In section 8 of the said Regulation at the end of the third clause, insert the following :—

“ In case of this sale also, it has to be published by a registered post as in case of sale under the second clause of this section ”.

8. At the end of section 13, the following clause is to be added, namely :—

“ Fifth. If during the possession of the person or persons making the advance the tenure is again advertised for sale under this Regulation, it shall be competent to any other tenure holder of the second degree of such tenure or to a person holding an interest in such tenure to stay the sale by paying into court the amount of balance and if this amount was an advance within the meaning

*The Bengal Patni Taluks Regulation (Amendment) Bill, 1938.**(Clauses 9—11.)*

of this section, such latter person or persons shall be entitled to the benefits and subject to the liabilities mentioned in the fourth clause in spite of the fact that the tenure is in possession of the former person or persons."

9. In section 14, clause (1) after the word "lodge", add the following, namely :—

"With the officer conducting the sale in case the zamindar refuses to accept it, whereupon the sale shall be stayed."

10. In section 14A, first clause, sub-clause (b), after the word "interest" and before the words "and all charges", the following words shall be inserted, namely :—

"Up to the date of sale".

11. (i) In section 15, first clause, second paragraph, from the middle, the following words shall be omitted, namely :—

"Upon furnishing security, if required, the extent of half the *jama* or annual rent be."

(ii) In the third paragraph of the said clause from the middle the following words shall be omitted, viz.—

"Notwithstanding that good and substantial security shall have been furnished or tendered on requisition."

(iii) The proviso to the said third paragraph shall be omitted.

STATEMENT OF OBJECTS AND REASONS.

Under the present arrangement though alienations and transfers are recognised yet the names of the transferees are not generally entered in the *sherista* of zamindar and as a result the tenure is sold in the name of the original holder and the real owners have to suffer. Sometimes zamindars also refuse to recognise the transferees. It is, therefore, proposed by the amendment to provide sure mode of registering transferee's name in the *sherista* of the zamindar on payment of transfer fee at the time of registration of the transfer.

Where there are several co-sharer *patnidars*, if some of them make default, others had to bear the burnt of the whole burden. Sometimes it becomes even difficult for such others to recover that amount by way of contribution.

The necessity of providing further facilities to the defaulting *patnidars* or other interested persons to stay sales is quite evident.

If a concise statement of sale is sent to the defaulting *patnidars*, the sale setting aside cases shall be few and far between.

The proposed amendments aim at removing those and other difficulties.

No. 4684L.C.—29th August 1938.—In pursuance of the provisions of rule 21 of the Bengal Legislative Council Rules, as modified and adapted under section 84(3) of the Government of India Act, 1935, the following Bill which was introduced in the Bengal Legislative Council on the 22nd August, 1938, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE BENGAL LAND ALIENATION BILL, 1938.

WHEREAS it is expedient to restrict the passing of lands from the hands of rayats and under-rayats to non-agriculturists or to agriculturists owning more areas than they can cultivate themselves ;

It is enacted as follows :—

1. This Bill shall be called the Bengal Land Alienation Bill of 1938.

2. It shall extend to whole of Bengal and shall apply to lands which come under the purview of the Bengal Tenancy Act, 1885.

3. It shall come into force as soon as it is passed into an Act and receives the assent of the Governor.

4. In this Bill—

- (a) Rayats and under-rayats, proprietors and tenure-holders shall mean rayats and under-rayats, proprietors and tenure-holders as defined in the Bengal Tenancy Act, 1885.
- (b) Holding shall mean the interest of a rayat or under-rayat as defined in the Bengal Tenancy Act.
- (c) A non-agriculturist shall mean a person who is not a bona fide tiller of the soil and does not cultivate land with his own hand.
- (d) A Jotedar means a rayat having more than 100 bighas rayati land.

5. No rayat or under-rayat shall transfer any land of his holding to any proprietor, tenure-holder, Jotedar or non-agriculturist except under the following circumstances :—

- (a) When the proprietor or tenure-holder is a resident of the village and has not already got more than 100 bighas in his Khas or Barga possession and the area proposed to be purchased will not make the total area after purchase in his possession or Barga possession more than 100 bighas.
- (b) When the proprietor, tenure-holder or Jotedar requires land for the purpose of homestead or Cutchery and no more than 5 acres is wanted for the purpose.
- (c) When a non-agriculturist requires land for purposes of homestead and area wanted is not more than 5 acres.
- (b) When any enterprising man or firm requires land for agriculturo or scientific methods or for any public purpose and the Collector of the district certifies as to the bona fides of the purchaser and recommends the sale.
- (e) When any enterprising man or firm requires land for establishment of factories, etc., and the area is not more than 50 bighas.
- (f) When the transfer is in favour of a relation within 3^ddegrees of.

6. No deed of transfer shall be accepted for registration, unless it contains an endorsement from the transferee or his agent to the effect either that the transferee is neither a proprietor, tenure-holder, Jotedar or non-agriculturist, or that he comes under one or other of the exceptions of section 5 (which shall be specified in the endorsement).

*The Bengal Land (Alienation) Bill, 1938.**(Clauses 7-10.)*

7. If this endorsement is found to the satisfaction of any Civil Court to be false or incorrect within 6 years of the registration of the transfer deed, the transfer shall stand cancelled and the Court holding transfer cancelled shall sell the land transferred, by bid to a bona fide agriculturist or to any other person coming under any of the exceptions specified in section 5 after taking a certificate from the purchaser or his authorised agent to that effect, which if found incorrect within 6 years the holding will again be liable to resale.

8. Out of the sale proceeds half shall go to the person at whose instance the sale was cancelled and the remaining half shall be credited to Government as cost of the proceedings.

9. No Court shall accept the offer of purchase from any bidder if any sale in execution of any decree or in any involuntary sale, without taking a certificate from the purchaser that either he is not a proprietor, tenure-holder, Jotedar or non-agriculturist or he comes under any of the exceptions specified in section 5 and without warning to the proprietor that the purchase will stand cancelled if the endorsement is found incorrect at any time within 6 years of purchase.

10. If in any involuntary sale, the highest offer from bidder who can legally bid according to the provision of this Act falls short of the decretal money or if there be no bid from any proper bidder, the Court shall temporarily make over the land, put to sale to the decree-holder for such period as the Court thinks fit but not exceeding six years for realisation of his dues from the usufruct of the land and in such a case the land shall revert to the judgment-debtor after the period of enjoyment by the decree-holder.

STATEMENT OF OBJECTS AND REASONS.

The Legislature before 1928 did not consider it proper to make the rayati lands transferable as they thought it would be against the interest of the real rayats who being illiterate and improvident will quickly sell off their lands whenever faced with any financial difficulty. In 1928 however the Legislature realised that in spite of no provision in the law about transfer of rayati lands, occupancy holdings were being sold and purchased freely and owing to non-existence of the provision of transfer in the Act, the custom of paying Salami to the landlord for getting recognition of transfer had grown up. The Legislature thought it proper to legalise the custom, though it was a pernicious custom and directly in contravention of articles 55 and 56 of Regulation VIII of 1793, according to which the Salami was a new imposition of the nature of an Abwab. The legalising of the Salami and fixing its rate prevented the abuse of powers by oppressive landlords but it did not prevent passing away of lands to the hand of non-agriculturist or accumulation of too large a quantity of lands in the hands of individual rayats. The Legislature having realised that Salami is an Abwab pure and simple and has failed to serve the so-called purposes of restricting transfer of lands to undesirable persons, have just passed Bill abolishing Salami altogether. It has now become necessary to enact some law which might effectively restrict transfer of lands to non-agriculturists and accumulation of too large a quantity of land in the hand of individual rayats. Provision is therefore made in this Bill making transfer of land to non-agriculturists and rayats having already a large area in possession, illegal except under special circumstances. The provisions of this Bill are far simpler than those of the Punjab Land Alienation Act and it is believed it will not throw much burden of additional work on the Revenue Officers of the Province. But at the same time care has been made to make the provisions effective by laying down that transfer against the provisions of this Act will stand cancelled if they are proved to be such at any time within 6 years of their execution.

**THE BENGAL PUBLIC GAMBLING (AMENDMENT) BILL,
1938.**

**A
BILL**

further to amend the law in force in Bengal relating to public gambling.

WHEREAS it is necessary to encourage the business of horse-tending in India and for that purpose to amend the definition of "Gaming";

It is hereby enacted as follows:—

1. This Act may be called the Bengal Public Gambling (Amendment) Act, 1938.

2. This Bill extends to the whole of the Presidency of Bengal, and shall come into force on such date when it receives the assent of the Governor.

3. For the definition of "Gaming" in section 2 of the Bengal Public Gambling (Amendment) Act, 1913, as amended by section 23 of the Bengal Amusement Tax Act of 1922, the following shall be substituted, namely—

"Gaming" includes wagering or betting [except wagering or betting upon a horse-race, when such wagering or betting takes place—

- (a) on the day on which such race is to be run,
- (b) in an enclosure which the Steward controlling such race have set apart for the purpose with the sanction of the Local Government, the Local Government may give such sanction under such conditions which shall provide for—
 - (1) the payment of a license fee;
 - (2) the amount of stakes which may be allotted for different kinds of horses;
 - (3) the measure to be taken for the training of persons to become jockeys;
 - (4) the regulation of the constitution of the Club or the Association controlling a horse-race; and which may also provide for such other matters, whether directly or indirectly connected with horse-racing, for which, in the opinion of the Provincial Government, it is necessary or expedient to make provision in the license; and
- (c) (1) with a licensed book-maker, or
- (2) by means of a totalisator, as defined in section 14 of the Bengal Amusement Tax Act, 1922];

but does not include a lottery.

STATEMENT OF OBJECTS AND REASONS.

The aim and object of this Bill is to put some check on the lakhs of rupees that every year drain out of Bengal in connection with the business of horse-racing, and at the same time to encourage race-horse-breeding to grow, as a regular industry in India, to give adequate facilities to Indians for taking up the profession of jockeys, to see a substantial part of the huge income arising to these race-clubs is spent in charitable institutions meant for the Indians and lastly to protect the interest of the Indians, wherever possible, in every sphere of this business.

As matters obtaining now in Bengal, the business of horse-racing is so completely in the iron grip of the non-Indian clubs that one might fairly suspect that these clubs are wielding an unholy monopoly in the trade to the prejudice and detriment of the interests of the Indians. And as a matter of fact they spare no pains to push their own "Country brand" in any and every sphere of the business. They give no encouragement whatsoever, to train up Indians as jockeys. Although obliged by statutes to contribute some of their incomes to charities, these clubs, in fact, spend only a petty sum for the charities in which the Indians are concerned and the rest, which means a long figure, goes to the charities in which Indians are not concerned. Again at present race-horses are invariably being imported into India every year from foreign countries and the purchasers have no other choice but to pay heavily for them. This is possible only because there are no horses of Indian origin to compete with these imported animals. But if some encouragement is given by these clubs to these country-bred horses to grow up as race-horses, there is still a good scope for the growth of a new industry in India, viz., race-horse-breeding. This is a very prospective business no doubt. In short these are the few grievances against the horse-racing business as prevailing in Bengal. And this Bill is drafted to remove them.

CHAPTER IV.

8. Except as hereinafter provided, the provisions of this Act shall not be applicable to the sale of foreign liquor but when an empowered local body has prescribed a maximum number of licensed shops under section 4 or section 5 it has prohibited the sale of liquor under section 5 and the Local Government is satisfied that the object of such prescription or prohibition is being avoided by the sale of foreign liquor in the local area concerned, the Local Government shall by rule made under the provision of the Bengal Excise Act of 1909 prohibit the Collector from granting a license for the sale of foreign liquor in the said local area except in accordance with the terms of such resolutions as such empowered local body may have passed or may pass in respect of country liquor or with the special sanction of the Local Government.

10. Subject to the provisions of this Act the provisions of the Bengal Excise Act of 1909 and the rules made thereunder, shall have full force and effect in the local area of all empowered local bodies.

STATEMENT OF OBJECTS AND REASONS.

The main purpose of this Act Bill is to empower local bodies to regulate sale of liquor and intoxicating drugs within their respective jurisdictions and in case of urgency, to prohibit sale of liquor and intoxicating drugs, but it excludes sale of foreign liquor under the normal circumstances. The demand is modest one while other provinces are foregoing ahead with big scheme of total prohibition, it is desirable that the powers should be taken for the local body to restrict the number of licensed shops and to regulate the sale of liquor and intoxicating drugs. There is no two opinion in the country that the policy of gradual abolition if not total prohibition at a time should be followed for the best interest of the country. The Government of Bengal has already accepted this policy and has set up local Advisory Licensing Board here and there. Hence for these purposes but their workings are not satisfactory, hence the necessity of the proposed Bill. I appeal to every well-wisher of the country to extend his support to me in placing this Act on the Statute Book of Bengal at no distant date.

STATEMENT OF OBJECTS AND REASONS.

The Bengal Food Adulteration Act of 1919 stands in need of amendment in the light of the altered circumstances in the wording of the Act as it stands now various loopholes have been detected. The unscrupulous sellers taking advantage of these defective provisions of the law adopt various devices to frustrate the purpose of the law. Some of the sellers sell large quantities of linseed oil as mustard oil to the ignorant and unsuspecting simple consumers.

Some of them stock and sell adulterated mustard oil but declare the same as mixed oil, not for human consumption but for machineries, soap-making, etc., but in reality they sell it for human consumption. Sometimes dealers previously convicted for selling or manufacturing adulterated food change the names of their firms to avoid punishment prescribed for second or subsequent offence.

Sometimes the wholesale dealers in food refuse to allow the examination of the food to be made or the taking of samples by the health staff on the ground that the keys of the godown are not with him. Some cunning dealers in milk declare their milk as mixed milk in order to avoid the penal provision of the law. In some cases dealers in food intentionally give fictitious names to adulterated mustard oil, ghee, etc., stored by them for sale and refuse to give sample of the same for analysis on the false pleas that these articles are not notified articles. Sometime sellers of food give false names even false fathers' names and addresses to avoid prosecution. In some cases the accused cannot be traced for want of correct names and addresses.

Hence there is necessity of amending the Act in the proposed manner in order to make the Act elastic enough, so that no real offender can escape the punishment prescribed by the law. There is no denying the fact that pure food is one of the most important factors in producing a healthy and wealthy nation. Of recent the percentage of adulterated food has abnormally increased to the deterioration of the health of the people. Instances are not wanting in which case even the members of a family died on taking adulterated food. The provincial Acts of some other provinces contain similar provisions as proposed in this amendment.

SCHEDULE.

(See section 2.)

Year.	Number.	Short title.	Extent of repeal.
1	2	3	4
1909	V	The Bengal Excise Act, 1909.	The whole so as it relates to liquor.
1914	VII	The Bengal Excise Amendment Act, 1914.	Ditto.
1922	VII	The Bengal Excise Amendment Act, 1922.	Ditto.
1934	IX	The Bengal Excise Amendment Act, 1934.	Ditto.

. STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to introduce in Bengal the principle of prohibition of the use of liquor as detrimental to the best interests of people residing in it. Instead of amendments of the existing Acts, separate legislation is undertaken for two reasons. Firstly, as prohibition is to be confined for the present to the traffic and use of liquor alone, it will be convenient to have a special Act regulating the matter.

Secondly, it is felt that a momentous measure of this nature should have approval of the legislatures in a more impressive form than of amendments to an Act framed to conform to an entirely different attitude towards the question.

2. The Bill is modelled on the corresponding legislation in regard to prohibition in the Central Provinces which followed the Madras line. It gives Government authority to introduce prohibition in selected areas, with power to extend it to other areas as time and experience enable such extensions to be made. It penalises all traffic and consumption of liquor, but provides—

- (i) for the exemption of rectified spirit required for medical, scientific and industrial purposes ;
- (ii) for the exemption, in regard to the purchase, consumption and possession of liquor, to Europeans and members of the Military, Naval and Air Forces ;
- (iii) the grant of personal permits to those who in the opinion of Government may be specially exempted and permitted to keep and consume foreign liquor, and
- (iv) the issue of licences to clubs and other institutions to possess foreign liquor and issue it to its members.

These concessions will be made only in favour of those who by long habit cannot dispense with the use of foreign liquor and who are not likely in the opinion of the licensing authority to abuse them.

3. The Bill makes provisions not only for the effective prevention, detection, investigation and prosecution of offences against the Act but also for the collaboration of anti-drink committees and honorary workers with the officers charged with the duty of controlling the administration of the Act.

GOVERNMENT OF BENGAL.**Bengal Legislative Council Department.****NOTIFICATION.**

No. 4699L.C.—29th August 1938. — In pursuance of the provisions of rule 21 of the Bengal Legislative Council Rules, as modified and adapted under section 84(3) of the Government of India Act, 1935, the following Bill which was introduced in the Bengal Legislative Council on the 22nd August, 1938, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

**THE BENGAL SUPPRESSION OF IMMORAL TRAFFIC
ACT, 1933, AMENDMENT BILL, 1938.**

A

BILL

to amend the Bengal Suppression of Immoral Traffic Act, 1933.

WHEREAS it is expedient further to amend the Bengal Suppression of Immoral Traffic Act, 1933, in the manner hereinafter appearing ; It is hereby enacted as follows :—

This Act may be called the Bengal Suppression of Immoral Traffic Amendment Act, 1938.

1. In the preamble of the Bengal Suppression of Immoral Traffic Act, 1933, hereinafter to be called the said Act in the second line after the words "Suppression of" the words "brothels and" shall be added.

2. In section 3 of the said Act regarding definition of brothel, in the fourth line after the word "prostitution", the words "for gain of any other persons" shall be omitted.

3. After section 6 of the said Act the following clause shall be inserted as section 6A :—

6A. (1) The Chief Executive Officer in case of the Calcutta Corporation or the Commissioners of any municipality in Bengal may at any time cause a notice to be served upon any person, who occupies or manages or acts or assists in the management of, or upon any woman who resides in, uses or frequents any house, room or place in the city of Calcutta or in any municipal area of Bengal in which the business of a common prostitute is carried on, requiring such person or woman after a date to be mentioned in the notice, which shall not be less than 15 days from the date of notice, not to reside in, use or frequent any street or place specified in the notice, or directing such person or woman after a date to be mentioned and fixed as aforesaid to remove himself or herself to such place whether within or without the city of Calcutta or any municipal area of Bengal within such time as the Chief Executive Officer in case of the Calcutta Corporation or the Commissioners of any municipality prescribe.

(2) If any person or woman so directed under subsection (1) fails or refuses to remove himself or herself as directed within the time specified, the Commissioner of Police in case of the city of Calcutta or the Superintendent of Police in case of any other municipal area, shall cause such person or woman to be arrested and removed in police custody to the place prescribed.

(3) Any person on whom a notice under this section shall have been served, disobeying the requisition therein contained shall be punished with imprisonment which may extend (a) in the case of first offence to one month and (b) in the case of a second offence or subsequent offence to three months.

(4) Whoever within two years from the date of his or her removal under the provision of this section returns to any place within the city of Calcutta or within any municipal area, without permission in writing of the Chief Executive Officer in case of the city of Calcutta or without the permission in writing of Chairman of any municipality shall be punished with imprisonment for a term which may extend to two years or with a fine of Rs. 500 or with both.

STATEMENT OF OBJECTS AND REASONS.

There are no two opinion in this matter that the prostitution should be regulated in the interest of public good. As the law stands at present, the municipal bodies have got practically very little power in this respect. The proposed 6 A (1) to (4) are proposed to be added to the Act in question with a view to give necessary power to localise and regulate this necessary evil in municipal area. The section 9, Bombay Prevention of Prostitution Act of 1923, contains similar provisions with some slight modification. In the light of experience slight change in the definition of brothel is proposed.

1934 ..	VII	The Bengal Criminal Law Amendment Act, 1934, being an Act to supplement the Criminal Law in Bengal.	Ditto.

STATEMENT OF OBJECTS AND REASONS.

We are supposed to have been given a constitution which will lead us to responsible Government. If the provinces have been given Provincial Autonomy, that Autonomy implies the rights of all citizens and specially of minorities to express their opinion freely and the recognition of their fundamental rights to freedom of person and property and the right to free Association. At present there exist in the Statute Book of this province laws as shown in the Schedule which are inconsistent with the fundamental rights of citizens. Most of the enactments embody provisions of temporary Ordinances which were issued by His Excellency the Governor General for dealing with the non-co-operation movement. They were never intended to be permanent measures but they have now been placed permanently in the Statute Book. The Bengal Criminal Law Amendment Acts have been used for purposes of detaining prisoners without trial for indefinite periods without any charge and without the possibility of a resort to courts for writ of Habeas Corpus. They are special measures providing special procedure and methods of speedy trial and with Special Magistrates, which may be suited to a country which is given over to military rule. Bengal is now in a perfectly normal condition. Even the recent great jute strike did not necessitate use of any of the provisions of the Bengal Public Security Act or the other Acts in the Schedule. There is now no terrorism for the Suppression of the Terrorist Outrages Act to remain in the Statute Book.

To meet all cases of violence and for the legitimate purposes of preventing dangers to human life or serious disturbance of public tranquillity, ordinary laws of the land are quite sufficient for the purpose. Moreover there are in the Statute Book some repressive laws framed and passed by the Indian Legislature applicable to whole of India, which unfortunately we cannot touch.

For many years past, there has been strong agitation for repeal of various repressive laws and the issue was directly placed before the electorate by groups of political parties some of which have been returned to power and some of which have been returned as the largest single party in the Legislatures with mandate amongst other things for making strenuous attempts to repeal the repressive laws.

No extraordinary measure is now necessary. Executive should never be in possession of more power than what the situation demands. The enactments sought to be repealed are all extraordinary measures which give extraordinary powers to the executive. It is necessary that those measures should not be allowed to hang as "Democles Sword" over the heads of the people. The only way to remove the least suspicion that these measures might be used by the executive to throttle the opposition in the country will be to remove them from the Statute Book. Parliamentary Government requires that the opposition should be able to criticize freely not merely inside but outside the Legislatures also, the Ministerial party in power and if possible to create disaffection against it and dislodge it from power. There should be a clear recognition of the fundamental rights of the citizens to ordinary freedom of persons and freedom of association and freedom of expression of public opinion where it does not come in conflict with the lives of the citizens or the tranquillity of the state to preserve which the ordinary laws of the land give ample powers to the executive.

It is high time, these laws are removed from the Statute Book.

Hence the measure.

J. C. BASU,

for Director of Agriculture, Bengal.

Resolution on the Reports of the Sanitary Board and of the Chief Engineer, Public Health Department, for the year 1937.

GOVERNMENT OF BENGAL.

Department of Public Health and Local Self-Government.

Public Health.

RESOLUTION—No. 2950 P.H.

Calcutta, the 30th August 1938.

Read the Reports of the Sanitary Board and of the Chief Engineer, Public Health Department, for the year 1937.

Improvement in the financial condition of the Province enabled Government to revert to the policy of making grants towards water-supply, drainage and sewerage schemes. Although, in the absence of any matured schemes, no part of the provision made for this purpose was actually availed of by local bodies during the year, the revival of the grants resulted in definite encouragement to local bodies to undertake sanitary engineering schemes.

The total expenditure on water-supply, drainage and sewerage schemes recorded a further rise during the year. The expenditure on waterworks amounted to Rs. 7,50,326 and that on sewerage to Rs. 1,52,027 as against Rs. 5,70,472 and Rs. 56,649 respectively in the previous year.

Sketch projects for schemes estimated to cost Rs. 28,04,250, detailed projects to the estimated value of Rs. 12,25,298, and detailed estimates and plans for miscellaneous works amounting to Rs. 51,268 were drawn up during the year under review. Investigation and preparation of sanitary engineering schemes may thus be said to have made good progress.

The Chief Engineer, Public Health Department, reports that all the six municipal towns which have recently constructed waterworks have adopted the decentralised storage system to which reference has been made in paragraph 10 of the report.

In order that all works of water-supply for domestic purposes as well as all sanitary and drainage projects in the rural areas may receive the necessary amount of expert supervision, the Chief Engineer, Public Health Department, has been appointed Inspector of local works for this purpose. All tube-well projects proposed to be financed from the Government of India grants for rural uplift were, under orders of Government, referred to the Chief Engineer for previous approval. After examining the schemes, the Chief Engineer gave suitable instructions for sinking and maintenance in each case.

In the last paragraph of his report the Chief Engineer has alluded to the advance which has been made in the matter of converting indifferent tube-well water into first class drinking water by treating the water according to a number of comparatively inexpensive processes.

The department continued to render valuable assistance to the municipal bodies and other local authorities by way of inspection, advice and supervision and the local bodies, on the whole, readily co-operated with the department.

The Sanitary Board, composed of 16 members as in the previous year, held four meetings during the year and examined various engineering and public health schemes before forwarding them to Government. The Board also reviewed the inspection reports of departmental officers and gave useful advice. A Sub-Committee was appointed by the Board during the year under review to investigate as to whether the introduction of water-supply in towns without provision of effective drainage had led to an increase in malaria and to consider what steps should be taken if the data obtained indicated any appreciable rise in the incidence of malaria in such cases.

The Minister desires to express his appreciation of the valuable assistance given to Government by the members of the Sanitary Board during the year under review.

The Minister is glad to note that the staff of the Public Health Department ably led by Mr. Griffin, the Chief Engineer, carried on their duties satisfactorily during the year under review.

By order of the Governor,

G. S. DUTT,

Secy. to the Govt. of Bengal.

**NOTE OF BELGIAN GOVERNMENT
 REGARDING REGULATIONS AND
 FORMALITIES TO BE OBSERVED
 BY FOREIGNERS INTENDING TO
 SETTLE IN THE KINGDOM OF
 BELGIUM.**

Attention of the public is hereby drawn to the fact that foreigners desirous of settling permanently in Belgium must first provide themselves with the documents prescribed by the International Agreements (identity card, passport, visa). These Agreements are based on the principle of the strictest reciprocity.

To admit that a foreigner may enter Belgium with impunity in contravention of these Agreements, is to abolish at once the International Agreements, to the sole benefit of foreigners, without equal facilities for the Belgian Nationals who shall continue to be bound by these Agreements.

Strict instructions have been issued to the Police and the Customs officers in order to prevent foreigners from entering Belgium, who without being in possession of the necessary papers try to cross the Belgian boundaries.

In order to encourage tourism and trade, the Belgian Consulates have been empowered to grant special touristic or business visas.

It has come to the knowledge of the Belgian Authorities that foreigners coming to Belgium covered by such visas, do not leave the country on the expiry of such visas and try to settle permanently in the country.

This attitude is inadmissible and the Belgian Government shall not tolerate foreigners who thus deliberately violate the rules and regulations in force and aggravate the economic situation of the country.

Foreigners who wish to settle in Belgium with a view to practise a trade, carry on a business or to be engaged in manual labour, have to apply to the Belgian Consulates for information regarding the formalities to be complied with by them in order to be granted permission to settle in the country.

The applications for "permits de séjour" in Belgium, submitted in due form, are to be considered by the "Surete publique Belge", who will examine them with care in order to safeguard national economy and public peace.

The *Adhyapakas* are, therefore, requested to exercise great watchfulness in revising the application forms of their candidates so that the forms are properly filled in before they are sent to the Secretaries of the local Samajas (in the case of the First and Second Examinations) and to the Secretary of the Bengal Sanskrit Association (in the case of the Title Examination) and that all details regarding the specification of subjects and their groups, names of candidates, etc., are duly attended to.

8. No change of subject will, under any circumstances, be allowed after the applications of candidates for the First and Second Examinations have been received by the Secretaries of the local Samajas in case of the First and Second Examinations and by the office of the Secretary, Bengal Sanskrit Association, in case of the Title Examination.

9. Applications for change of centre will not be considered even on payment of the usual fee of Rs. 2 if they are not received within the 2nd January 1939, corresponding to the 17th Paus 1345 B.S.

10. Candidates desirous of appearing at more than one examination in one year in one subject must take special permission from the Secretary, Bengal Sanskrit Association, before they submit their forms and fees to the Secretaries of the local Samajas (in the case of the First and Second Examinations) or to the Secretary of the Bengal Sanskrit Association (in the case of the Title Examination). Applications for such special permission should definitely state the names of the subject and centre in which the candidate will appear and should reach the office of the Bengal Sanskrit Association on or before the 7th November 1938 (21st Kartik) (in the case of the First and Second Examinations) and the 26th November (10th Agrahayan) (in case of the Title Examination) after which no such application will be entertained.

11. If any candidate is found appearing at more than one examination in one year in one subject without obtaining special permission for the same from the Secretary, Bengal Sanskrit Association, the application will be liable to rejection.

12. In case of more than one examination in the same subject in the same year or in case of any change of centre the Secretaries of local Samajas or the Superintendents of Examinations should, on no account, allow any candidate to sit for examination unless he can show evidence that he has been granted by the Secretary, Bengal Sanskrit Association, permission for more than one examination or permission for centre-change, as the case may be.

13. Candidates and their *Adhyapakas* are hereby informed that the office of the Bengal Sanskrit Association neither directly issues any application forms nor entertains the same so far as the First and Second Examinations are concerned. *The Association office does not undertake any responsibility in case of loss or otherwise of the fees and forms for the First and Second Examinations if these are sent direct to it.*

14. The Sanskrit Title Examination will be held on Monday, the 6th February, Tuesday, the 7th February, Wednesday, the 8th February, and Thursday, the 9th February, 1939 corresponding to 23rd, 24th, 25th and 26th Magh 1345 B.S. An optional examination in English Grammar, Translation and Composition will be held on Friday, the 10th February 1939 (the 27th Magh 1345 B.S.).

15. Applications for permission to appear at the Title Examination should be made to the undersigned on or before the 1st December 1938 (the 15th Agrahayan 1345 B.S.), with the usual fee of Rs. 3 only. No application will be entertained with a fee of Rs. 3 if both the fee and the application do not reach the office within the 1st December 1938. Applications will be received with a fine of eight annas for each application up to the 12th December 1938 (26th Agrahayan 1345), after which no further application will be entertained.

16. If the Admit cards of the candidates of the Title Examination are not received by the candidates or the *Adhyapakas* within

a month from the last date of fee-collection, the *Adhyapakas* or the candidates are requested to bring the matter to the notice of the Secretary, Bengal Sanskrit Association.

17. Candidates and their *Adhyapakas* are hereby informed that in sending fees for the Title Examination by money-order the details, i.e., names of candidates, names and addresses of *Adhyapakas*, the total amount sent, etc., should be clearly written in the money-order coupon.

Money-order without such details will not be accepted.

No application for the Title Examination should reach the office later than the money-order remitting fees for the same.

If an application is received in due time but the money-order remitting the fee for the same is not received in due time the application will not be accepted.

The Secretary regrets to say that unless the above instructions are strictly followed by the candidates or by the *Adhyapakas* he will be forced to reject the applications.

18. *Adhyapakas* of candidates while sending fees and applications are hereby requested to send, a statement showing the names of his pupils appearing in different subjects, to the Secretary of the local centres in case of the First and Second Examinations and to the Secretary, Bengal Sanskrit Association, in case of the Title Examination. (This statement is required in the interest of *Adhyapakas* for adding up marks of candidates for the preparation of stipend list).

19. Applications for printed copies of Title Examination application forms should be made to the Secretary, Bengal Sanskrit Association.

The time of the examination is from 12 a.m. to 4 p.m.

PUBLIC SERVICE COMMISSION, BENGAL.

NOTICE.

A competitive examination for direct appointment to the Bengal Civil Service (Executive), and the Bengal Junior Civil Service will be held in Calcutta in February 1939 in accordance with Rule IX of the Bengal Provincial Services Recruitment Rules, published in notification No. 7183A., dated the 22nd May 1930.

2. *Vacancies.*—The number of vacancies to be filled on the result of this examination will be as follows :—

Bengal Civil Service (Executive)	7
Bengal Junior Civil Service	42
Upper Division of Secretariat clerical service	6

It is open to Government to fill from this examination any additional vacancies which may occur in these services or in the Bengal Police Service, the Bengal Excise Service, or the Bengal Junior Excise Service up to the date of the examination or within such period thereafter as Government may think fit to prescribe.

Each candidate will be required to specify in his application the service or services for which he desires to compete, placing them in the order of his preference, and the choice thus indicated will be final. Appointments will be assigned to successful competitors with due consideration to their choice and the number of vacancies in the services.

3. *Qualifications.* The indispensable qualifications of a candidate are—

- (i) that he is a native of Bengal or has a permanent domicile within the Presidency of Bengal ;
- (ii) that he is a natural born subject of His Majesty, or of an Indian State in respect of whom the Governor-General in Council has made a declaration under section 262 of the Government of India Act, 1935 ;
- (iii) that he shall have attained the age of 22 and shall not have attained the age of 25 on the 1st October, 1938.
- (iv) that he is a graduate of a recognised University ;
- (v) that he is of good character ; and
- (vi) that he is of sound health, good physique, active habits and free from organic defects or bodily infirmity.

Along with his application every candidate shall submit proof of his age as explained in the form of application and certificates, written not more than one year prior to the date of his application, from two responsible persons unconnected with his College or University, and not related to him, testifying to his private character and stating that he is a native of or has a permanent domicile within the Province of Bengal. The age limits can in no case be relaxed.

Copies of the certificates attested by the nominating authorities or by responsible persons may be submitted.

4. *Applications—Method of submission of fee, etc.*—(i) A person desiring to be admitted to the examination shall apply before the 15th November 1938 to the head of the college from which he passed his examination for the degree of Bachelor of Arts, Science, Commerce, etc. A candidate who passed the examination as a non-collegiate student shall send in his application to the Registrar, Calcutta University, together with a certificate of character signed by the Principal of his college if he was connected with one, and by the Magistrate of the district in which he is resident in other cases ; candidates from the Dacca University shall apply to the Registrar, Dacca University. All other candidates (not included in the previously mentioned categories) shall apply to the Director of Public Instruction, Bengal, Writers' Buildings, Calcutta :

Provided that in no case shall a candidate apply to more than one of these authorities, and that such applications shall always be made through their Durbars by persons resident in a State in India.

(ii) Applications shall be made, in the form shown in Schedule I, copies of which may be obtained from the heads of Colleges, the Registrars of the Calcutta and Dacca Universities, and the Director of Public Instruction, Bengal.

(iii) No application will be taken into consideration by the nominating authority unless it is accompanied by a chalan showing payment into a Government treasury in Bengal of the sum of Rs. 5. This payment is obligatory whether such application is subsequently rejected or not and no claim for a refund of this fee will be entertained. *Applications stamped with postage stamps will not be accepted.*

(iv) No allegation that an application form or letter respecting such form, has been lost or delayed in the post will be considered unless the person making such allegation produces a Post Office registration receipt or certificate of posting. Candidates who delay their applications until a late date will do so at their own risk.

5. *Nomination.*—The heads of colleges, the Registrars of the Calcutta and Dacca Universities and the Director of Public Instruction, Bengal, shall forward to the Secretary, Public Service

Commission, Bengal, before the 25th November 1938, the applications of candidates nominated in accordance with the allotment of nominations shown in Schedule II and shall certify the moral character, of each candidate so nominated. The application of non-collegiate students nominated by the Registrar of the Calcutta University should be supported by the character certificates mentioned in paragraph 3 above. In making these nominations, due regard should be paid to the desirability of different classes and communities being represented in the public service. Care should be taken to nominate only such candidates as are likely to pass the medical examination since experience shows that a considerable number of candidates successful in the literary examination fail to pass the medical test.

6. Selection certificates.—The Public Service Commission will issue certificates of selection to such of the nominated candidates, not exceeding 350 in all, as they consider, qualified to appear at the examination. The selection or rejection of a candidate by the Commission shall be final, and no candidate shall be admitted to the examination unless he holds such a certificate :

In making their choice the Public Service Commission will give all possible consideration to the cases of candidates of the minority communities and the backward classes and shall call for further nominations from the heads of colleges or Commissioners of Divisions if the number of selected Muhammadan candidates does not reach 45 per cent of the total number selected.

7. Particulars of candidates.—The Public Service Commission may require such further proof or particulars from the candidates as they may consider necessary, and may make enquiries regarding their character and domicile

8. Examination fee and time-table.—Every candidate to whom a certificate of selection has been issued will, within a week from the date of its receipt, deposit into a Government treasury in Bengal a sum of Rs. 50 as examination fee and forward the receipt for the same to the Secretary, Public Service Commission, Bengal. No part of the fee will be returnable to a candidate. Delay in this respect may render a candidate's name liable to removal from the list of examinees. On complying with this requirement, the candidates will receive from the Secretary a time-table for the examination. The examination will commence on the 13th February 1939, and will be held at the Town Hall and the Presidency College, Calcutta.

9. Canvassing.—Any attempt on the part of a candidate to enlist support for his application through persons of influence or officials of Government will disqualify him for appointment. Spontaneous recommendations from persons interested in the candidates, or otherwise known to them, will be disregarded.

10. Ineligibility of Government servants.—No person holding a substantive appointment in Government service or an appointment on probation against a substantive vacancy under Government will ordinarily be eligible to appear at the competitive examination. Persons holding purely temporary posts under Government should submit their applications in the manner prescribed in paragraph 4 above.

11. Syllabus of examination and marks.—The examinations will be held in the subjects and according to the syllabus shown in Schedule III which also indicates the numerical value to be attached to each paper at the examination.

As the possession of a knowledge of a provincial vernacular is an essential condition of appointment, candidates, whose ordinary spoken and written language is not Bengali, must take up translation from English into one of the provincial vernaculars named below :—

(i) Bengali,

(iii) Urdu,

(ii) Hindi,

(iv) Nepali,

and *vice versa* in the compulsory paper. Successful candidates, however, who have offered any language other than Bengali in that paper and are appointed to a service for which there is a Departmental Examination, will be required to pass completely the Departmental Examinations in Bengali within two years of the date of their appointment to the service.

12. Medical Examination.—As soon as the result of the examinations have been declared, a proportion of the candidates who have qualified will be called upon to appear before a Medical Board for a certificate of their fitness for Government service in form A of Schedule IV of the Bengal Provincial Services Recruitment Rules. An order to appear before the Medical Board must not however be understood to mean that the candidate, if found fit, will necessarily receive an appointment as the number of candidates who will be summoned for medical examination will be slightly in excess of the total number of vacancies, and the question of his appointment will depend upon the results of the medical examination taken as a whole. The regulations governing the physical examination of candidates are set forth in Schedule IV of the Bengal Provincial Services Recruitment Rules and intending candidates are advised before they apply for admission to the examination to satisfy themselves that they are likely to qualify as physically fit under those regulations, for experience has shown that a considerable number of the candidates at the competitive examinations are subsequently rejected by the Medical Board as unfit.

F. AHMAD,

Secretary, Public Service Commission, Bengal.

The 8th September 1938.

SCHEDULE I.

APPLICATION FORM.

For the use of candidates seeking admission to the competitive examination for appointment to the Bengal Civil Service (Executive) and the Bengal Junior Civil Service.

N. B.—1. Copies of the form may be obtained on application to the Principals of Colleges, Registrars of the Calcutta and Dacca Universities, and the Director of Public Instruction, Bengal.

2. Before filling up the form the candidate should verify from the rules and the syllabus that he is eligible for admission to the examination.

If the Matriculation certificate does not contain sufficient particulars to show that the candidate is qualified by age to enter for the examination, a certificate from the candidate's University or College showing his date of birth as recorded on entering the University or College must also be furnished. The age of a candidate as recorded on entering his University is regarded as correct unless there is a proof to the contrary. If a candidate claims that his age is other than as so recorded, he must submit with his application the evidence on which he bases his claim. In such a case the Public Service Commission, Bengal, will require among other evidence a satisfactory explanation of the circumstances in which a wrong age was recorded at the time of entry into the University. They will also require a statement of any attempts made by the candidate to have the University record amended and of the results of such attempts. The statement of age must tally with the statement of age made in any previous application of this nature and will be deemed absolutely final. No revision of such a declaration will be allowed at a later period for any purpose whatever.

7. Every candidate must submit with his application a chalan showing payment into a Government treasury in Bengal of the sum of Rs. 5. No part of this fee will be returnable to any applicant, whatever the result of his application. Applications unaccompanied by the fee, or stamped with postage stamps, will be ignored.

PART VI

Bills introduced in the Council of State and Legislative Assembly; Reports of Select Committees presented to the Council and Assembly; and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 8th August, 1938:—

L. A. BILL NO. 15 OF 1938.

A Bill further to amend the Indian Aircraft Act, 1934.

WHEREAS it is expedient further to amend the Indian Aircraft Act, 1934, for the purpose hereinafter appearing; It is hereby enacted as follows:—

Short title.

1. This Act may be called the Indian Aircraft (Amendment) Act, 1938.

Insertion of new section 8B in Act XXII of 1934.

2. After section 8A of the Indian Aircraft Act, 1934 (hereinafter referred to as the said Act), the following section shall be inserted, namely:—

Emergency powers for protecting the public health.

“8B. (1) If the Central Government is satisfied that India or any part thereof is visited by or threatened with an outbreak of any dangerous epidemic disease, and that the ordinary provisions of the law for the time being in force are insufficient for the prevention of danger arising to the public health through the introduction or spread of the disease by the agency of aircraft, the Central Government may take such measures as it deems necessary to prevent the outbreak of such disease or the spread thereof.

(2) In any such case the Central Government may, without prejudice to the powers conferred by section 8A, by notification in the official Gazette, make such temporary rules with respect to aircraft and persons travelling or

things carried therein and aerodromes as it deems necessary in the circumstances; and such rules may provide for the recovery of any costs incurred in connection with any measures taken under sub-section (1) and for the levy of fees in connection with any sanitary precaution enjoined or certificate required by the rules made under this sub-section.

- (b) Notwithstanding anything contained in section 14, the power to make rules under sub-section (2) shall not be subject to the condition of the rules being made after previous publication, but such rules shall not unless specially continued by order of the Central Government remain in force for more than three months at any one time."

Amendment of
section 10,
Act XXII of
1934.

3. In section 10 of the said Act, for the words, figure and letter "or section 8A" the words, figures and letters "section 8A or section 8B" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

Section 2 of the Epidemic Diseases Act (No. III of 1897) till 1st April, 1937 empowered the Governor (General in Council, when he was satisfied that India or any part of it was threatened with an outbreak of any dangerous epidemic disease and the ordinary provisions of the law for the time being in force were insufficient, to make or require or empower any person to take such measures and, by public notice, prescribe such temporary regulations as he deemed necessary. This power was used in connection with the danger of epidemic following the Quetta Earthquake and later in 1936 in connection with the danger of entry of Yellow Fever *via* aeroplanes to Karachi.

2. As a result of adaptations necessary in view of the introduction of the Government of India Act, 1935, this power has been removed from the Governor (General in Council and located in the Provincial Government, for the province.

3. The Indian Aircraft Act contains a provision empowering the Central Government to make rules for the prevention of danger arising to public health by the introduction or spread of disease from aircraft and for the prevention of the conveyance of infection or contagion by aircraft. This rule-making power, however, is subject to the condition of previous publication for three months and, therefore, affords no remedy against an emergent danger requiring immediate action.

4. The Central Government is left, therefore, with no power of emergent regulation in a case in which the existence of such power is an important provision in the protection of India against the introduction of dangerous disease. The Bill seeks to remedy this by empowering the Central Government to take such special measures as may be necessary and to make temporary rules for a period not exceeding three months at any one time when there is danger of dangerous epidemic diseases being brought into India by aircraft.

Resolution on the Working of the Union Boards in Bengal during the year 1936-37.

GOVERNMENT OF BENGAL.

Department of Public Health and Local Self-Government.

Local Self-Government.

RESOLUTION—No. 2271L.S.-G.

Calcutta, the 2nd September 1938.

Read—

Reports of the Commissioners of Divisions on the working of the union boards during 1936-37.

The total number of union boards in the Presidency rose from 4,810 to 4,895 during the year under review. Of the 85 new boards which came into existence during the year, no fewer than 40 were established in the Midnapore district, to which the provisions of the Village Self-Government Act had been re-introduced in the preceding year; 27 were established in the Cox's Bazar subdivision of the Chittagong district, 15 in the Diamond Harbour subdivision of the district of the 24-Parganas, and one each in the districts of Faridpur, Bakarganj and Bogra. Two union boards, viz., one in the district of Malda and another in Noakhali, were abolished. One union board in the district of Murshidabad was split up into two boards and a union board in the Pabna district was also similarly split up into two.

2. Franchise.—The number of voters of union boards increased from 3,478,000 to 3,855,000 owing, chiefly, to the widening of the franchise under the amended Village Self-Government Act and to the establishment of the new boards mentioned above. The increase was most marked in the Dacca and Rajshahi Divisions where the number of voters rose by nearly 175,000 and 94,000, respectively. In the Chittagong Division, on the other hand, the number of voters suffered a decrease of 7,711, for which no explanation has been furnished.

The total number of members of union boards increased from 43,048 to 43,870, comprising 19,364 Hindus, 24,227 Muhammadans and 279 belonging to other communities. The membership of the union boards consisted of 850 officials and 43,020 non-officials, as compared with 769 and 42,274, respectively in the preceding year.

Elections, where they were held, generally passed off smoothly and evoked considerable interest. A keen spirit of rivalry was displayed at the time of the elections, resulting in some cases in the institution of election disputes before the District Magistrates for setting aside the elections.

3 Finance.—The total income of union boards, excluding opening balances, rose from Rs. 93·96 lakhs to Rs. 98·03 lakhs during the year under review. The receipts from the union rate amounted to Rs. 73·12 lakhs, of which a sum of Rs. 15·31 lakhs was derived from rates imposed under section 37 (b) of the Village Self-Government Act and Rs. 57·81 lakhs from the chaukidari rate, against Rs. 11·84 lakhs and Rs. 58·20 lakhs, respectively, in the preceding year. The other important item of receipts of union boards were Rs. 2·30 lakhs from pounds and ferries, Rs. 2·48 lakhs as rents of chaukidari chakran lands, Rs. 2·88 lakhs from fees and fines realised by union courts and benches, and Rs. 1·84 lakhs and Rs. 3·35 lakhs, respectively, from grants made by the district boards under sections 33 and 45 of the Village Self-Government Act, as compared with Rs. 1·64 lakhs and Rs. 3·20 lakhs, respectively, in the preceding year. A sum of Rs. 1·79 lakhs was received by the union boards mainly out of the provincial grants for rural water-supply and anti-malarial works placed at the disposal of the District Magistrates and the district boards, while a further sum of Rs. 2·37 lakhs was received as contributions from other sources.

The total expenditure of union boards rose from Rs. 94·31 lakhs to Rs. 96·67 lakhs, of which Rs. 49·02 lakhs, or about 50·7 per cent., was spent on the salaries and equipment of chaukidars and dafadars. Out of the expenditure incurred by the boards on works of public utility during the year under review, a sum of Rs. 8·48 lakhs was devoted to water-supply, of which Rs. 7·55 lakhs

represented original works; Rs. 6.66 lakhs was spent on the construction and maintenance of village roads; Rs. 2.66 lakhs on drainage, conservancy and other sanitary measures; Rs. 3.09 lakhs on primary education and Rs. 2.60 lakhs on medical relief. The most noticeable increases in the expenditure on works of public utility during the year were Rs. 69,000 on medical relief, Rs. 65,000 on water-supply, Rs. 23,000 on sanitation, and Rs. 18,000 on primary education.

The accounts of the union boards were audited, as usual, by the Circle Officers but no case of serious irregularity or defalcation was reported.

4. Activities of union boards.—(i)

Water-supply.—The total expenditure on water-supply by union boards rose from Rs. 7.83 lakhs to Rs. 8.48 lakhs. This year also the union boards of the Burdwan district showed a very laudable spirit of co-operation with the district board in the matter of improvement of water-supply in rural areas and spent a sum of Rs. 49,807 for this purpose, the major portion of the expenditure being incurred in sinking tube-wells. One-third of the cost of sinking the wells was borne by the union boards and grants equivalent to two-thirds of the cost were made by the district boards. The union boards in Hooghly spent a sum of Rs. 68,663 on water-supply and thus practically maintained their standard of expenditure of the preceding year under this head. Several boards sank tube-wells entirely out of their own funds. The main problem, so far as tube-wells are concerned, is that of their maintenance. It is reported that suitable steps have been taken by the district boards in regard to this matter.

The union boards in Mymensingh and Dacca again spent the largest amounts on water-supply, viz., Rs. 1,03,000 and Rs. 1,02,000, respectively, as compared with Rs. 75,000 and Rs. 82,000, respectively, in the preceding year. The other districts with noticeably large expenditure on water-supply by union boards were Faridpur (Rs. 66,000), Tippera (Rs. 61,000), Rangpur (Rs. 44,000), Pabna (Rs. 34,000) and Dinajpur (Rs. 32,000). The union boards in Tippera are reported to have taken a very active interest in solving the problem of water-supply and to have sunk a

large number of tube-wells during the year under review, while a substantial portion of the income of the union boards of the Rajshahi Division was devoted to this object.

(ii) *Communications.*—The total amount spent by the union boards on the construction and maintenance of rural communications increased from Rs. 6.56 lakhs to Rs. 6.66 lakhs. As in the previous years, the union boards of Bakarganj spent the largest amount under this head, viz., Rs. 74,000, of which Rs. 48,000 represented original works; the next largest figures were attained by Mymensingh, Tippera and Faridpur with an expenditure of Rs. 58,000, Rs. 49,000 and Rs. 43,000, respectively.

The union boards of the Chittagong district are reported to have paid commendable attention to the improvement of village roads and to have taken steps to construct a few good roads according to a three-year plan instead of spending money on petty repairs to a large number of roads. The Chandkhana union board in the Nilphamari subdivision of the Rangpur district completed the construction of a brickbuilt bridge during the year.

(iii) *Public health.*—The total amount spent by the union boards on sanitation, including drainage and conservancy, rose from Rs. 2.38 lakhs to Rs. 2.66 lakhs. The union boards of the Burdwan and Birbhum district spent Rs. 13,300 and Rs. 12,700, respectively, on conservancy and other sanitary measures, while those of Howrah spent about Rs. 6,000 on drainage and Rs. 9,600 on conservancy and other sanitary measures. A sum of Rs. 13,200 was spent by the union boards of Jessore for the improvement of sanitation and conservancy; and the union boards of Dacca and Dinajpur spent Rs. 12,000 and Rs. 11,500, respectively, for this purpose. Anti-malarial work was carried on through the agency of 36 union boards in the district of Jessore and a total sum of Rs. 2,850 was paid to them by the district board, out of which Rs. 1,900 was contributed by Government. Measures for the prevention of malaria were also undertaken by a large number of union boards in the Rangpur and Pabna districts. A number of union boards in Bogra made arrangements for free distribution of quinine during the malaria season.

The removal of water-hyacinth engaged the attention of a number of union boards, particularly in the Tippera district where useful work was done for the eradication of the pest. Some union boards in the Satkhira subdivision of the Khulna district cleared a portion of the Kabodak river of water-hyacinth and received monetary help from the district board for this purpose.

A number of union boards maintained regular conservancy arrangements at their respective headquarters, the most prominent among them being Naogaon and Charchat in the Rajshahi district; Nilphamari, Saidpur and Kurigram in Rangpur; Sonatala, Jaipurhat and Santahar in Bogra; Ishurdi and Ullapara in Pabna and Siliguri in Darjeeling. The union boards at Naogaon and Siliguri are reported to have maintained a high standard of conservancy service, similar to that in the municipal area, and to have spent Rs. 3,797 and Rs. 3,369 respectively, for this purpose. A conservancy system was started jointly by the union boards of Patiya and Suchakradandi in the Chittagong district. The Laksam union board (Tippera) also maintained a conservancy service with a paid staff of sweepers.

The union boards in Faridpur incurred the largest expenditure, viz., Rs. 18,800, on drainage, of which Rs. 13,000 represented original works; the union boards in Khulna coming next with an expenditure of Rs. 14,000 under this head. The Lalmonirhat union board in the Kurigram subdivision (Rangpur) took up a drainage scheme in co-operation with the authorities of the Eastern Bengal Railway.

(iv) *Medical relief.*—A sum of Rs. 2.60 lakhs was spent by the union boards on the maintenance of village dispensaries and the provision of medical relief in rural areas, as compared with Rs. 1.92 lakhs in the preceding year. No details of the activities of the union boards in this connection are, however, forthcoming from any of the divisional reports except those of the Rajshahi and Chittagong Divisions. A number of joint union board dispensaries were maintained in the Rangpur district, while 11 dispensaries in Bogra and 8 in Malda were maintained either singly or jointly by the union boards. In Bogra, a large number of union boards also paid contributions towards the maintenance of district board dispensaries. The Gopalganj union board in Malda started

a dispensary through its own efforts. In the Pabna district, a sum of Rs. 8,400, received out of the Government of India's rural uplift grant, was utilised for the establishment of union board dispensaries at Bhanguria, Sankharipara, Sonamukhi and Ramkrishnapur, while five union board dispensaries were started in the Chittagong district with the help of grants received from the same source. Eleven village dispensaries were maintained by the union boards of Tippera in addition to the five new dispensaries started with the Government of India's grant for rural uplift. Two kala-azar centres were also maintained by the union boards in the Chandpur subdivision of the same district. Altogether 88 new union board dispensaries were established in different parts of the Presidency with the help of the grants received from the Government of India for rural uplift during the year.

(v) *Primary education.*—The total expenditure by union boards for the promotion of primary education during the year rose from Rs. 2.91 lakhs to Rs. 3.09 lakhs. The union boards of the Burdwan, Presidency, Dacca and Rajshahi Divisions spent Rs. 80,000, Rs. 62,000, Rs. 69,000 and Rs. 87,000, respectively, under this head against Rs. 74,000, Rs. 59,000, Rs. 71,000 and Rs. 77,000, respectively, in the preceding year; while the union boards of the Chittagong Division spent practically the same amount, viz., Rs. 10,000, as in 1935-36.

Fourteen primary schools were maintained by the union boards of the Chandpur subdivision (Tippera) under the management of qualified teachers. Free primary schools were also maintained by the Khempur, Sadlichak, Bedrabad and Kaisat union boards in the Malda district and by some union boards in the Rangpur district. All the union boards of the Gaibandha subdivision (Rangpur) as well as several union boards in the Bogra district made grants-in-aid to primary schools and almost all the union boards in the Pabna district are reported to have maintained primary schools in their respective areas.

(vi) *Some features of special interest.*—About 50 one-acre farms were started in different parts of the Chittagong district, under the supervision of agricultural demonstrators, for conducting experiments in the cultivation of certain crops with a contribution of Rs. 10 from each union board. The union boards of

Tippera spent a considerable amount on agricultural improvements and the maintenance of stud-bulls. The union boards of Tantiband and Himaitpur in the Sadar Circle of the Pabna district contributed Rs. 100 and Rs. 200, respectively, for the purchase and maintenance of stud-bulls in their respective unions. Some union boards in the Sadar subdivision of the Rangpur district also established agricultural farms which served as useful demonstration centres. In Tippera some silted up khals were re-excavated by the union boards and served the purpose of both irrigation and drainage. The Enayetpur union board in Malda completed the construction of a sluice gate in the village embankment at Bahakola at a cost of Rs. 550, of which Rs. 150 was paid by the Divisional Commissioner out of his discretionary grant. A number of union boards in the Rajshahi Division continued to maintain arrangements for street lighting, the most prominent among them being Naogaon in the Rajshahi district, Kurigram, Nilphamari and Domar in Rangpur, and Siliguri in the Darjeeling district. A number of libraries were started in the districts of Rangpur and Malda and four physical culture centres were opened in the latter district with financial assistance from union boards.

5. Working of union benches and courts.—(1) *Union benches.*—The total number of benches in existence during the year under review was 1,453 against 1,400 in the previous year. The number of offences reported to these benches was 71,760, showing a decrease of 10,509 on that of 1935. The working of the union benches was on the whole satisfactory. They have afforded appreciable relief to the ordinary courts by disposing of a fair number of petty cases.

(2) *Union courts.*—The total number of courts in existence during the year was 1,338 against 1,237 in the previous year. The number of suits instituted in these courts was 104,675, showing a decrease of 15,897 as compared with 1935. These courts have afforded some relief to the munsifs in the majority of the districts in which they were established.

The union benches and courts also brought additional income to the union boards in the shape of fines and court-fees realised from the parties and thus helped the local bodies in taking up works of public utility.

6. Relation between district boards and union boards.—The relations between the district boards and the union boards continued to be generally satisfactory.

The total grants made by the district boards under section 45 of the Village Self-Government Act rose from Rs. 3.20 lakhs to Rs. 3.35 lakhs and represented 21.8 per cent. of the amount raised by the union boards by way of taxation under section 37 (b) of the Act and 36.3 per cent. of the total augmentation grants received by the district boards during the year from the provincial revenues, as compared with 27 per cent. and 34.6 per cent., respectively, in the preceding year. The district boards of the Rajshahi Division substantially reduced their contributions to the union boards under section 45 and paid a sum of Rs. 80,621 only as compared with Rs. 1,05,261 in the preceding year. The district boards in the Presidency Division also reduced their grants from Rs. 57,653 to Rs. 50,318. In the Burdwan, Dacca and Chittagong Divisions, however, the grants paid by the district boards increased from Rs. 51,898 to Rs. 81,245, Rs. 67,110 to Rs. 81,543, and from Rs. 37,795 to Rs. 41,540, respectively.

The amount received by the union boards under section 33 of the Act for the management of works and institutions transferred to them by the district boards also rose from Rs. 1.64 lakhs to Rs. 1.84 lakhs and the total income of the union boards from pounds, which is, in effect, a transfer of district board revenue to union boards, rose from Rs. 2.22 lakhs to Rs. 2.25 lakhs during the year under review.

7. General remarks.—The union boards in general showed an all-round progress in matters of village self-government and works of public utility. It is encouraging to find that the amount of rates levied by the boards under section 37 (b) of the Village Self-Government Act during the year under report was 29 per cent., in excess of the amount levied in the preceding year. The collection of rates was also generally satisfactory and the payment of the salaries of chaukidars and dafadars was regular.

Although there is still considerable room for improvement in the actual administration of the union boards, there can be little doubt that the utility of the

boards is being more and more recognised and their importance in the field of local self-government is destined to increase as the local boards gradually disappear.

The union boards continued to give useful assistance to the local officers of Government in almost all the branches of the administration. They not only rendered valuable assistance in carrying on propaganda for jute restriction, in the destruction of the water-hyacinth pest and in the preparation of electoral rolls and various statistical returns, but also displayed a spirit of healthy co-operation with the police in the prevention and detection of crime.

While instances of inefficiency arising out of party factions and other causes were not uncommon, there are clear indications of the fact that the Village Self-Government Act is being used with increasing advantage, and, in certain semi-urban areas, it has been demonstrated that union boards can and do perform with reasonable adequacy the functions of small municipalities.

Rules.

1. Election of members to district board.

1. A local board shall not elect members for the district board until—

(a) the number of members of the district board to be elected by such local board has been fixed by notification under section 7 of the Act, and

(b) such local board has elected a Chairman.

2. (1) With one month from the date of publication of the notification referred to in clause (a) of rule 1 or of the election of the Chairman of a newly constituted or reconstituted local board, whichever be the later, the local board shall elect the requisite number of members for the district board at a special meeting to be convened by the Chairman:

Provided that if the term of office of the members of the district board does not expire within two months after the election of the Chairman, the election of members for the district board shall not be held earlier than two months before the reconstitution of the district board is due.

(2) The meeting shall be presided over by the Chairman or in his absence by the Vice-Chairman, or in the absence of both the Chairman and the Vice-Chairman, by a member elected for the purpose by the members present. In the last case, the member elected to preside shall be duly proposed and seconded.

(3) The election shall proceed as follows:—

(a) Any member present may propose a candidate either by name or by virtue of his office, for election to the district board.

(b) Such proposal shall not be taken into consideration unless it has been seconded by a member other than the candidate or the proposer.

(c) If the number of candidates duly proposed and seconded be less than or equal to the number to be elected by the local board in each case, the President shall declare such candidate to be duly elected.

- (d) If the number of candidates duly proposed and seconded be greater than the number to be elected by the local board the President shall hand to each member present a voting paper in the form below in which the names of candidates who have been duly proposed and seconded have been entered and shall ask each member to record his vote by placing the mark x in the space provided for the purpose in the voting paper opposite to the name of the candidate or the names of the candidates whom the member prefers, and to sign his name on the back of the counterfoil of the voting paper.

Voting paper.

Name of candidate.	Space for placing mark X.	Counterfoil for signature of the voter.
1.		<div style="border-left: 1px dashed black; padding-left: 10px;"> Fold here (perforated). </div>
2.		
3.		
4.		

- (e) The voting paper shall be invalid if the mark × is placed opposite the name of more candidates than the number to be elected or if it is so placed as to render it doubtful to which candidate such mark is intended to apply, or if any mark is made on the foil of it by which the votes may be identified.
- (f) each member shall proceed in turn to a place set aside for the purpose and shall there fill in the voting paper in such a manner, that no other person can perceive what he writes. After placing the mark × on the voting paper he shall fold the counterfoil so as to conceal the votes recorded, sign his name on the back of the counterfoil and then hand the paper to the President. Without such folding of the counterfoil or signature the voting paper shall be invalid.
- (g) The President as soon as all the voting papers have been delivered to him, shall in the order hereinafter specified—
 - (i) reject any voting paper which is unsigned or of which the counterfoil is not properly folded;
 - (ii) tear off the counterfoils containing the signature and place them apart from the voting papers proper;
 - (iii) reject any voting paper which is irregularly marked;
 - (iv) read out the names of candidates against which the mark × has been validly made;
 - (v) count the votes; and
 - (vi) declare the candidates to whom the largest number of votes may have been given to be duly elected on the district board;

Provided that where an equality of votes is found to exist between any candidates and the addition of one vote will entitle any of the candidates to be declared elected, the determination of the person or persons to whom such one additional vote shall be deemed to have been given shall be made by lot to be drawn in the presence of the President and in such manner as he may direct.

(4) Notwithstanding anything contained in the Rules of Business adopted by any board, if there are more candidates than vacancies the names only of the persons proposing and seconding and the number of persons voting for each candidate and the names of the candidates duly elected shall be entered in the proceedings.

3. The names of the persons elected to serve on the district board shall be forwarded without delay to the Deputy Commissioner of Darjeeling, who shall ascertain if they are duly qualified and are willing to serve.

4. If any person having been elected, decline to take office or be found not to be duly qualified, the unsuccessful candidate, if any, who received the largest number of votes, shall be declared to be duly elected. If there is no unsuccessful candidate, a fresh election shall be held to fill the vacancy thus created.

5. In the event of any person being elected by two or more local boards, such person shall have liberty to choose which local board he will represent, and as regards every other local board for which such person has been returned, the result of the election shall be determined under the preceding rule as if no votes had been recorded for him, and, if necessary, a fresh election shall be held.

6. Only persons qualified for election as members of a local board in the district are qualified for election as members of the district board.

7. The names of the elected members of the district board shall, together with the names or official designation of the appointed members be published in the *Calcutta Gazette*.

II. Term of office.

8. A member of a district board having once been elected as such by a local board continues to hold office until the expiry of his term and the subsequent abolition of the local board by which he was elected, does not affect the term of his office as a member of the district board.

9. If any member of local or district board shall be unable to complete his full term of office, the vacancy caused by his resignation or removal or death shall be filled by the appointment or election, as the case may be, of another person, who is not disqualified under the Act or the rules, and the person so appointed or elected shall fill such vacancy for the unexpired remainder of the term for which such member would otherwise have continued in office.

10. (1) Whenever the number of members of an existing local or district board is increased, additional members shall be appointed or elected, as the case may be, for that purpose.

(2) The term of office of such additional members shall expire at the end of the term of office of the other members of the existing board.

III. Bye-election.

11. On the occurrence of a vacancy amongst elected members under rule 9, or in the case of an election of an additional member under rule 10, the Deputy Commissioner of Darjeeling shall send a notice to the local board which has the right to elect a member to fill the vacancy or the additional office, as the case may be, and such board shall, within one month of the receipt of such notice, elect a member in accordance with rules 2 to 6.

IV. Miscellaneous.

12. No election shall be invalidated on a point of form, provided that these rules have been substantially obeyed.

13. No election shall be invalidated on account of any irregularity whatever, unless it appears that the irregularity was such as materially to affect the results of the election.

14. No person in the employment or pay of the district or local board shall directly or indirectly engage in canvassing for votes or otherwise assist in the election of any candidate otherwise than by giving his own vote. Any breach of this rule will render him liable to dismissal.

15. All costs incurred in the publication of notices, the holding of elections or taking any other necessary action under these rules, shall be payable from the district fund.

16. The provisions of rules 12 to 15 shall apply to all local board and district board elections.

17. All disputes arising under these rules shall be decided by the Deputy Commissioner of Darjeeling and his decision shall be final.

V. Rules for the election of Chairman and Vice-Chairman.

(i) Local boards.

18. Within a week from the date upon which the names or official designation of the appointed members of a local board shall have been published in the *Calcutta Gazette*, the Deputy Commissioner shall give notice to the members of such local board, calling upon them to hold a meeting on a specified date to elect from among their own number a Vice-Chairman and a Chairman, unless they decide to request the Local Government to appoint a Chairman. If the members fail to elect the Chairman or the Vice-Chairman within the appointed time, the Commissioner shall appoint a Chairman or the Vice-Chairman as the case may be.

19. (1) Whenever a meeting of a newly constituted or reconstituted local board is held for the purpose of electing a Chairman and a Vice-Chairman, it shall be presided over by a member of the local board who shall be elected by the members of the board for conducting the election. The President in such cases must be duly proposed and seconded and must not be a candidate for the office of Chairman.

(2) A meeting of a local board other than a newly constituted or reconstituted board held for the purpose of electing a Chairman shall be presided over by the outgoing Chairman or, in his absence, by the Vice-Chairman:

Provided that should the outgoing Chairman be himself a candidate for election, the meeting shall be presided over by the Vice-Chairman if he is not also a candidate for election:

Provided further that if there is no Chairman, and the Vice-Chairman is a candidate for election, and also, if the Chairman and Vice-Chairman be both candidates for election, the meeting shall be presided over by a member of the local board other than the Chairman or Vice-Chairman, who shall be elected by the members of the board for the purpose of conducting the election of the Chairman. The President in such case must be duly proposed and seconded and must not be a candidate for the office of Chairman.

20. If only one member is proposed and seconded as President, he shall be deemed to be duly elected as such. If more than one member is proposed and seconded, the members present shall decide the election by vote. The votes may be taken by voices or by show of hands.

21. If the votes for two or more members proposed as President of the meeting are equal, then the selection of one of them shall be decided by lot.

22. The election of the Chairman of the local board shall proceed as follows:—

- (a) Any member present may propose a candidate either by name or by virtue of his office for the office of Chairman.
- (b) No candidature shall be taken into consideration unless it has been seconded by a member other than the proposer.
- (c) If one duly nominated candidate duly stands for election, the President shall forthwith declare such candidate to be elected.
- (d) If there be more than one candidate for election as Chairman, the President shall hand to each member present a voting paper in the form appended to these rules, in which the names of the candidates who have been duly proposed and seconded have been entered, and shall ask each member to record his vote by placing the mark x in the place provided for the purpose in the voting paper, opposite the name of the candidate whom the member prefers, and to sign his name on the back of the counterfoil of the voting paper

Provided that where the Deputy Commissioner has for any reason failed to take action within the prescribed time under sub-rule (1) the Local Government may nevertheless extend the period of one week to such time as they may think proper and such time shall be deemed to be the period prescribed under sub-rule (1).

PART VI

Bills introduced in the Council of State and Legislative Assembly; Reports of Select Committees presented to the Council and Assembly; and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 8th August, 1938.—

L. A. BILL No. 13 of 1938.

A Bill further to amend the Indian Cotton Cess Act, 1923

WHEREAS it is expedient further to amend the Indian Cotton Cess Act, 1923, for the purposes hereinafter appearing; It is hereby enacted as follows —

Short title.

1. This Act may be called the Indian Cotton Cess (Amendment) Act, 1938.

Amendment of section 2, Act XIV of 1923.

2. In section 2 of the Indian Cotton Cess Act, 1923 (hereinafter referred to as the said Act),—

(a) the word "and" at the end of clause (e) shall be omitted; and

(b) after clause (f), the following clause shall be added, namely:—

"(g) a reference to British India includes a reference to Berar"

Amendment of section 4, Act XIV of 1923.

3. In clause (viii) of section 4 of the said Act, for the words "one to represent the industry in Bombay" the words "two to represent the industry in Bombay" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

The Government of India (Adaptation of Indian Laws) Order, 1937, has adapted the Indian Cotton Cess Act, 1923, in such a manner as to cause it to extend to Berar but has left the various references in the Act to British India to be construed in the light of the adapted definition of "British India" in the General Clauses Act, the effect of which is that references to British India in a law made before the commencement of Part III of the Government of India Act, 1935, do not include Berar. It is proposed to amend the Act in such a manner as to cause the references therein to British India to embrace Berar.

2 It is also proposed to amend section 4 (viii) of the Act. Under this section as it stood before adaptation, the cotton growing industry in Bombay was entitled to two representatives on the Indian Central Cotton Committee. When the section was adapted, one representative was allotted to Sind and one to Bombay. It was found later, however, that, on a comparison of the cotton acreage of Bombay with that of other provinces, the cotton growing industry in Bombay was still entitled to two representatives. The deficiency has hitherto been made good, as a temporary measure, by appointing the second Bombay representative as an additional member under section 4 (xi) of the Act. It is proposed that the mistake in section 4 (viii) of the Act should be rectified by substituting the word "two to represent the industry in Bombay" for the words "one to represent the industry in Bombay" in sub-section (viii) of section 4 of the Act.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 15th August, 1938 —

L. A. BILL No. 16 of 1938

*A Bill further to amend the Indian Tea Cess Act, 1903,
for a certain purpose*

WHEREAS it is expedient further to amend the Indian Tea Cess Act, 1903, for the purpose hereinafter appearing; It is hereby enacted as follows

Short title and commencement.

1. (1) This Act may be called the Indian Tea Cess (Amendment) Act, 1938.

(2) It shall come into force on such date as the Central Government may, by notification in the official Gazette, appoint in this behalf.

Amendment of section 4. Act IX of 1903

2. In sub-section (2) of section 4 of the Indian Tea Cess Act, 1903,—

IX of 1903

(a) for the word "twenty-seven" the word "twenty-eight" shall be substituted;

(b) in clause (c), the word "and", where it occurs at the end of the clause, shall be omitted; and

(c) after clause (d) the following clause shall be added, namely:—

"(e) one on the recommendation of the Travancore Government to represent the tea planters of Travancore"

STATEMENT OF OBJECTS AND REASONS

The Government of Travancore levy cess on tea exported from that State at the same rate as that levied in British India and credit the cess proceeds to the Indian Tea Market Expansion Board. This Board as at present constituted does not, however, contain a separate representative of Travancore tea interests. The object of this Bill is to amend the Indian Tea Cess Act, 1903, so as to provide for separate representation of tea planters of Travancore on the Indian Tea Market Expansion Board.

Annual Report of the Royal Botanic Garden and the Gardens in Calcutta and of the Lloyd Botanic Garden, Darjeeling, for 1937-38.

ROYAL BOTANIC GARDEN.

General.—During the year under review the most important event was the celebration on the 6th January of the 150th Anniversary of the Royal Botanic Garden, Calcutta. The Hon'ble Nawab Khwaja Habibullah Bahadur of Dacca, Minister, Agriculture and Industries Department, presided over the celebration which was attended by the British and the Indian botanists who had come to Calcutta to attend the Silver Jubilee Session of the Indian Science Congress Association. Sir James Jeans, the General President of the British Association and of the Indian Science Congress Association, and Sir Arthur Hill, Director, Royal Botanic Garden, Kew, addressed the gathering and amongst well-known British botanists present were Professor A. R. H. Buller, Professor F. E. Fritsch, Dr. C. D. Darlington, Professor R. Gates and Professor I. H. Harrison. Messages of congratulations and wishes for continued success were received from many scientific institutions and persons from India and abroad.

A Sesqui-centenary Volume of the Royal Botanic Garden, Calcutta, is under preparation in which the full proceedings, together with the contributions from many distinguished botanists on various branches of Indian botany, will be published.

It will be appreciated that the maintenance of the Garden's usefulness in many of its directions carries with it a necessity that living and herbarium specimens of plants from other Gardens abroad are regularly obtained. During the past year, the Superintendent when on study leave in England had an opportunity of reviving the arrangements by which the Royal Botanic Gardens, Kew, the British Museum (N.H.) London, and the Royal Botanic Garden, Edinburgh, promised to supply by way of exchange to the Sibpur Herbarium specimens which are rare or new or may be missing there. Sir Arthur Hill, Director, Royal Botanic Garden, Kew, and Sir William Wright Smith, Regius Keeper, Royal Botanic Garden, Edinburgh, have to be thanked for the very generous gift of some rare specimens from Kew and some new *Primulus* from Edinburgh. These are valuable acquisitions to the Herbarium.

The display of the cold weather annuals which this year did very well was highly appreciated by the public. The Garden carried away some of the best prizes at the flower show of the Royal Horticultural Society of India held on the 18th December, 1937. About 162 plants were planted in the Garden of which the following were new, the remainder being the always necessary replacements:—

Acacia leucophloea; *Caesalpinia sepiaria* var. *Japonica*; *Acacia* sp.; *Clausena heptaphylla*; *Piper Betle*; *Aglais perviridis*; *Eugenia lineata*; *Clerodendron Colebrookianum*; *Anona glabra*; *Ostodes paniculata*; *Barleria cristata* var. *Scarlet*; *Sesbania paniculata*, *Milletia reticulata*; *Diospyros Kaki*;

Lagerstroemia subcostata; *Bauhinia fassoglensis*; *Aloe striatula*; *Aloe africana*; *Albizia Julibrissin*; *Dolichandrone Hildebrandtii*; *Erythrina tomentosa*; *Clerodendron Zambesica*; *Acacia Senegal*; *Milletia oblata*; *Platanus occidentalis*; *Celtis Tala*; *Cordia Holstii*; *Bauhinia aculeata*; *Caesalpinia Gilliesii*; *Ruprechtia salicifolia*; *Manihot palmata*; *Calliandra bicolor*; *Terminalia australis*; *Acacia bonariensis*; *Sesbania Tripettii*; *Acacia visco*; *Cordia interrupta*; *Sonneratia apetala*.

2. Plant and seed exchange.—Five hundred and eighteen plants were received and 10,150 plants were despatched, out of which a large number have as usual been utilised for horticulture and roadside beautification of this country. One thousand one hundred and forty-six packets, 45 lbs. and 4oz. of seeds were distributed to various places abroad including Australia, Puerto Rico, Washington, China, Caucasus, Java, England, Holland, Brazil, Egypt, Africa, Trinidad, Germany, etc., and to the different parts of India, including Bombay, Lahore, Madras, Benares, Burma, Saharanpur, Nilgiri, Agia, etc.

Six hundred and forty-four packets and 3 lbs. of seeds were received from different foreign countries including China, Germany, England, Japan, Java, Australia, Singapore, and also from many parts of India. Of the new plants introduced into the Garden, *Victoria Cruziana* and *Salvinia auriculata* proved to be of special interest.

Fifteen plants of *Nepenthes Khasiana*—an interesting but rather delicate species—were received from the Deputy Commissioner in charge of Forests, Shillong. Of these three survived. One dozen selected plants of the Nilgiris (South India) were received for the 150th Anniversary Show from the Curator, Government Botanic Gardens, Ootacamund and are to date doing well. Our thanks are due to the Deputy Commissioner in charge of Forests, Shillong, and to the Curator, Government Botanic Gardens, Ootacamund for the gifts.

The road work was continued as in the past. Tarring of about 50,000 square feet of road was done during the year. Necessary repairs of bridges, houses, etc., were also done.

3. Herbarium and library.—Three thousand one hundred and thirty-five specimens were identified for a large number of correspondents, both official and unofficial, from all over India. The largest number of specimens was received from the Botanical Officer, Shillong Herbarium, in connection with the publication of the Flora of Assam which is being published by the Assam Government. Five thousand one hundred and ninety-eight sheets of this herbarium were again on loan this year to workers on special groups of plants, especially outside India. They included 4,293 sheets of the rest of the Indian *Labiatae* to Sir William W. Smith of the Royal Botanic Garden, Edinburgh, in connection with the preparation of a monograph on Indian *Labiatae* by Mr. S. K. Mukherjee, M.Sc., who was studying there; 236 sheets of *Hydnocarpus*, *Taraktogenos* and *Asteriastigma* to Berlin; 24 sheets of *Ficus glabella* to Canton University, China; 104 sheets of *Microtropis* to Elmer D. Merrill of the Harvard University; 259 sheets of *Selaginella* to Mr. J. Ramsbottom, Keeper, Department of Botany, British Museum (Natural History), London, which were duly worked out by Mr. A. H. G. Alston partly in collaboration with the Superintendent; 10 sheets of *Allium* to Mr. J. E. Dandy of British Museum (N. H.); 110 sheets

of *Cuscuta* to Leiden (Holland); 9 sheets of *Anthistiria* to the Forest Botanist, Dehra Dun; 29 sheets to Mr. A. Das of Assam and 133 sheets of *Labium* to Mr. A. D. Cotton, Curator of the Kew Herbarium. Two thousand eight hundred and fifty-five sheets including those of *Derris*, *Lilium*, *Hydnocarpus*, *Selaginella* and part of *Labiatae* which were on loan were received back in the herbarium. Two hundred and forty-eight sheets hailing from Japan (Professor Tanaka), China and Buitenzorg were additions to the herbarium either as exchange or free gifts. Three thousand and ninety-three sheets were incorporated into the general herbarium. About 1,000 sheets were mounted and repaired.

The increased demand for free supplies of botanical materials for purposes of research in and outside India was complied with satisfactorily. They included 182 named and mounted sheets of Bengal plants to Professor J. R. Mathews of the Aberdeen University; leafy twigs of *Ficus Krishnae* to Mr. Kotwal of Bombay; collection of Garden *Selaginellas* to Mr. A. H. G. Alston of the British Museum; Bulbils of *Dioscorea alata* to Mr. I. H. Burkill; specimens of *Salvinia species* to Assistant Professor of Botany, Fergusson College, Poona; preserved material of 12 species of Himalayan conifers to Dr. Heber of Berlin; specimens of *Polypores* to Dr. S. R. Bose of the Carmichael Medical College, Calcutta; packet of seeds of *Abronia augusta* to the Deputy Director of Agriculture, Mysore; 16 packets of seeds of *Helicium erratica* to several botanical and agricultural institutions throughout the world; 1 packet of seeds of *Phaseolus calcaratus* to the Director of Plant Breeding, Department of Agriculture, Sydney, Australia; packet of seeds of *Sapium sebiferum* to the Botanic Gardens, Peradeniya, Ceylon. Besides supply of materials, considerable amount of valuable information of a miscellaneous nature covering such subjects as botanical, economic plants, medicinal, horticultural and agronomy, was liberally supplied to a wide circle of correspondents too many to be mentioned in this brief report.

Mr. A. Das, the editor-author of the "Flora of Assam," Dr. N. L. Bor, the Forest Botanist, Dehra Dun, and Mr. C. E. Parkinson, the retiring Forest Botanist, Dehra Dun, visited the herbarium to work out their specimens. They were all given necessary facilities and assistance. Mr. Das has been in constant touch with the officers of the Herbarium in connection with the work on the flora of Assam and with the identification of his collection of Monghyr plants. The two assistants, Mr. N. Goswami and Mr. H. L. Chakravarty, worked in the herbarium throughout the year in connection with the investigation of the Indian medicinal plants by Br.-Col. R. N. Chopra, Director, School of Tropical Medicine. They and the artists staff of Br.-Col. Chopra were given full facilities and help in consulting herbarium materials, literature and plates. Especial arrangements had been made for their work at night and during the holidays.

4. Publications.—Amongst the publications of the Garden the following may be noted—(1) "Two New Flowering Plants" (*Diospyros Kika* Debbarman et Biswas and *Cortalaria Kotaiensis* Debbarman et Biswas), *Cardamine Smithiana* Biswas, *Convolvulus Baluchistanensis* Biswas, (2) "Studies on Indian Iron Bacteria" by Dr. K. Biswas (3) "Hand Book of Common Water and Marsh Plants of India and Burma" by K. Biswas and C. C. Calder was published as Health Bulletin No. 24 of the Government of India Publications, New Delhi. Mr. C. C. Calder contributed an article on "The Vegetation of India" to the Field

Sciences of India, published by the Indian Science Congress Association. The following were in the press:—

- (1) *Banauśadhi Parichaya*, a treatise on Indian medicinal plants, in Bengali, by K. Biswas and E. Ghosh, to be published by the University of Calcutta;
- (2) (i) *Flora of the Lushai Hills* by C. E. C. Fischer; and
(ii) *Some New North-West Himalayan Mosses* by H. N. Dixon and R. L. Badhwar, in the *Records of the Botanical Survey of India*, Volume XII, No. 2.

The present Superintendent while in London took the opportunity to discuss with Sir David Prain, the author of the well-known "*Bengal Plants*," and settled the final plan of rewriting a new *Flora of the Presidency of Bengal* as suggested sometimes since by Sir David. The work is being continued on the principles agreed.

Volume XIV, Part II of the *Annals of the Royal Botanic Garden*, "*An Account of the Genus Dioscorea in the East—the species which twine to the right*" by David Prain and I. H. Burkill was in the press.

One hundred and twenty-two copies of the *Annals of the Royal Botanic Garden, Calcutta*, Volume XIV, Part I, "*An Account of the Genus Dioscorea in the East*"—the species which twine to the left, by David Prain and I. H. Burkill with 85 plates were distributed to the different institutions of foreign countries. Names of thirty-one institutions have been added to the distribution list of the *annals* this year. This new distribution list was drawn up by Mr. I. H. Burkill and the writer in consultation with others at Kew. Names of some of the minor institutions were eliminated.

Allotment for the library was fully spent. Thirty-five journals and 3 books were purchased, 62 journals were received on exchange, 21 reports and 7 books were presented. Seventy-nine books were received back from loan and 39 books were still on loan at the end of the year. Eighty-five books were bound and many have been repaired.

5. **Finance.**—Out of a total budget allotment of Rs. 54,433 for staff and permanent establishment, Rs. 50,418 were spent, and under all other heads the expenditure amounted to Rs. 48,710 against the total allotment of Rs. 48,805. A sum of Rs. 3,980 was surrendered under the head "*Pay of officers—Charged*." There was a net saving of Rs. 130 under all heads during the year. Receipt of the department during the year amounted to Rs. 1,857.

6. **Staff.**—Mr. C. C. Calder, Superintendent, held the charge till 28th October 1937, when he went on leave preparatory to retirement. The writer held the charge from 29th October 1937 till the end of the financial year, in addition to his own duties as Curator of the herbarium. Mr. V. Narayanaswami officiated as Curator of the herbarium till the 29th October 1937, when the substantive holder of the post relieved him on return from study leave.

Messrs. N. Mitra and Md. Quasem Ali were Curator and Assistant Curator, Royal Botanic Garden, respectively, throughout the year.

Mr. Gholam Mohiuddin was Overseer of the Garden throughout the year.

Mr. A. T. Banerjee was Head Clerk throughout the year.

CALCUTTA GARDENS.

The display of winter annuals this year was a complete success, despite belated planting due to adverse weather conditions prevailing at the time of sowing seeds. It has been the custom of these Gardens to maintain a prolonged period of flowering of these popular winter annuals. Apart from the favourable weather conditions, the success of annual flower shows depends much on raising the seedlings earlier and planting them out in the open beds soon after the rains. Necessary control over the germination of the seeds in the nursery stage coupled with the amount of care taken when sowing is an important factor for the production of better quality of cold weather flowers. In this respect the Garden is much handicapped. The improvised arrangement of covering seed pans to protect them from wind and rain is very unsatisfactory, and suitable glass frames should be provided in the nursery. The beauty of the magnificent plant, the giant Amazon Lilies (*Victoria regia*) in the lakes of the Eden Gardens, grown so successfully during the last few years, attracting special attention of the Calcutta visitors, was marred by the cyclone that Calcutta experienced last September. Considerable havoc was also done to the trees of the Garden. The usual routine work was well and efficiently carried out. About one hundred plants from this Garden formed part of the exhibition arranged during the celebration of the 150th Anniversary of the Royal Botanic Garden, Calcutta. Special mention may be made of the success achieved in growing *Digitalis* in this Garden from seeds received from Mr. C. C. Calder, but no spike developed before the advent of the hot weather. Two other species of economic importance—one a *Passiflora* sp., and the other *Durio zibethinus*—introduced for the first time to the Garden—were kindly presented by a visitor. The fruit of the latter commonly known as "Durian" is much prized in Burma and Malaya. These are valuable acquisitions to the Eden Gardens and are doing quite well in the Calcutta climate.

The jheels are breeding grounds for mosquitoes and should be reexcavated.

It is still a baffling problem how to keep off the crowds from the lawns in the Calcutta Gardens during the football season. All possible attempts towards protection of garden beds and hedges have proved so far futile. No hedge of any kind will prove of any use so long as a strong iron railing is not provided along the entire south end wall of the Eden Gardens to prevent the enormous football crowds from damaging the hedges, lawns and beds.

Dalhousie Square and Curzon Gardens were selected for the erection of the statues of the late Sir R. N. Mukerjee and Sir H. Goenka—two of the leading citizens and philanthropists of the country. The former facing the General Post Office was unveiled by His Excellency the Right Hon'ble Lord Brabourne, G.C.S.I., G.C.I.E., M.C., Governor of Bengal, and the latter at the west end of the Curzon Park was unveiled by Sir John Anderson, P.C., G.C.B., G.C.S.I., the late Governor of Bengal.

Finance.—Out of a total budget allotment of Rs. 32,191 under all heads, Rs. 32,177 were spent, leaving a small saving of Rs. 14. Receipts during the year from the Dalhousie Square Garden amounted to Rs. 4 only.

Staff.—Mr. Merlin Jones was Assistant Curator, Government Gardens, Calcutta, except for a very short period from 1st to 13th April 1937, when he was on leave.

Mr. J. A. Hulbert was Overseer throughout the year, and in addition to his own duties held the charge of the Calcutta Gardens during the period of absence of Mr. Jones on leave.

LLOYD BOTANIC GARDEN, DARJEELING.

The plants of the Lloyd Botanic Garden, Darjeeling, have to face somewhat inclement weather every year. The hardier species and those which have acclimatised themselves survive the vagaries of nature, but many of the introduced species do not show signs of healthy growth until they have adapted themselves to the local climatic conditions. The annuals which play an important part in the aesthetic aspect of the Garden are particularly sensitive to the weather conditions. The success of staging flowers and decorative delicate plants depends considerably on how much nature favours them. The average rainfall during the year was 102·15 inches, rather below the normal. Such a low rainfall than the average led to a drier condition which affected the summer annuals. On the other hand, continuous rain damaged to a certain extent the autumn annuals. This entailed extra labour due to replacement of the seedlings several times. The usual routine work of the Garden continued and attempts were made to complete some of the new works taken in hand. The rock garden is gradually taking shape. The maintenance of such a highly specialised garden necessitates yearly introduction of new plants replacing the dead or overgrown ones. The following species were added during the year:—

Alyssum saxatile, *Alyssum serpyllifolium*, *Androsace Hookeriana*, *Arenaria capillaris*, *Arenaria alpestra*, *Arenaria laricifolia*, *Anchusa myosotidiflora*, *Saponaria cerastoides*, *Aster rotundifolius*, *Aubrietia Campbelli*, *Arabis alpina*, *Arabis muralis*, *Achillea filipendulina*, *Artemisia splendens*, *Berberis* sp., *Spergula pilifera*, *Statice puberula*, *Alonsoa Warszewiczii*, *Aloe* sp., *Phyllanthus reticulatus*, *Saxifraga purpurascens*, *Saxifraga hispidula*, *Saxifraga diversifolia*, *Lilium Wallichianum*, *Lilium nepalense*, *Ajuga macrocarpa*, *Nierembergia hippomanica*, *Impatiens arguta*, *Impatiens Jurpia*, *Impatiens tripetala*, *Diascia Barberae*, *Dianthus allwoodii*, *Erigeron glabellus*, *Erigeron aurantiacus*, *Epilobium parviflorum*, *Epilobium alpinum*, *Erica* sp., *Gentiana tibetica*, *Cenia barbata*, *Meconopsis paniculata*, *Meconopsis Baileyi*, *Meconopsis nepalensis*, *Meconopsis Wallichii*, *Meconopsis cambrica*, *Cathcartia villosa*, *Erinus alpinus*, *Polygonum capitatum*, *Polygonum orientale*, *Polygonum amplexicaule*, *Dimorphotheca pluvialis*, *Globularia trichosantha*, *Lychnis alpina*, *Verbena erinoides*, *Verbena lilacina*, *Iberis gibraltarica*, *Genista Daisy Hill*, *Cytisus scoparius*, *Primula capitata*, *Primula petiolaris*, *Primula denticulata*, *Iris Clarkei*, *Antirrhinum molle*, *Digitalis ferruginea*, *Ephedra vulgaris*, *Cynoglossum furcatus*, *Veronica* sp., *Calamintha alpina*, *Cortia Hookeri*, *Aster sikkimensis*, *Senecio diversifolia*, *Strobilanthes Wallichii*, *Adenophora Bulleyana*, *Hypericum cernuum*, *Chrysanthemum macrophyllum*, *Doronicum caucasicum*, *Calanthe odora*, *Gentiana sikkimensis*, *Erodium cicutarium*.

Annual requirements for seeds and plants for this Garden demand keeping up proper exchange relation with the overseas temperate

gardens. The Superintendent during his stay in Great Britain came into contact with the authorities of many leading botanical gardens, horticultural institutions and various nursery-men. He is receiving prompt response from them for exchanging seeds and plants. This Garden situated, as it is, in a unique floral region of the Eastern Himalayas forms a centre for distributing the Himalayan plants, and also for studying the particular types of plant associations which command the keen interest of botanists all over the world.

During the year only one tour was undertaken by the Curator for a short time which resulted in incorporating a few local species to the collection. Funds will have to be provided to carry on the field work in a proper manner. The Curator sent a collection of some of the interesting species of Himalayan Orchids to the Royal Botanic Garden, Calcutta, this year to display them for the inspection of the overseas visitors at the exhibition of the 150th Anniversary Celebration of the Royal Botanic Garden, Calcutta. One thousand and thirty-five herbarium specimens, representing 1,118 local genera with provisional names were sent to the headquarters for distribution. Eighty-three packets of seeds were kindly presented by different correspondents. Twelve bulbs collected from the higher ranges of Tibet were presented by Captain F. Kingdon Ward. The bulbs were not in a suitable state of preservation, but as desired by Captain Kingdon Ward, attempts are being made to revive them. Three thousand two hundred and seventy-eight packets of seeds, 119 plants, 10,964 seedlings were distributed to various botanical and other scientific institutions of the world. Many Indian botanical institutions received as usual plant materials for study.

Seeds of the undernoted species received from different correspondents germinated:—

Erodium cicutarium, *Erodium gruinum*, *Saponaria cerastoides*, *Scutellaria albida*, *Solanum sisymbriifolium*, *recarnigerum*, *Dipsacus laciniatus*, *Phleum pratense*, *Erigeron glabellus*, *Phalaris canariensis*, *Sarpiurus*, *Astragalus hamosus*, *Trifolium scabrum*, *Artemisia splendens*, *Aira capillaris*, *Silene schafta*, *Phyteuma Oites*, *Acacia nerifolia*, *Arenaria serpyllifolia*, *Campanula lactiflora*, *Helianthemum canadense*, *Buddleia alternifolia*, *Acacia notabilis*, *Vicia erecta*, *Cotoneaster angustifolia*, *Stachys iberica*, *Digitalis ferruginia*.

Two hundred and fifteen plants were planted as a result of the recent attempt to increase the general stock of the Garden plants and thereby utilising the more open space of the Garden which might in future develop—in suitable places—small arboretum composed of assorted local species. *Larix Griffithii* (a rather difficult plant to tackle with) and *Colquhounia vestita* are the two new additions. The flowering plants in pots were in full bloom and some of them seeded. These attracted usual admiration of the visitors—

Meconopsis Wallichii, *Meconopsis simplicifolia*, *Meconopsis cambrica*, *Meconopsis nepalensis*, *Meconopsis sinuata*, *Meconopsis paniculata*, *Primula denticulata*, *Primula obtusifolia*, *Primula sikkimensis*, *Primula petiolaris*, *Primula floribunda*, *Primula capitata*, *Saxifraga hispidula*, *Saxifraga purpurescens*, *Saxifraga diversifolia*, *Polygonum amplexicaule*, *Polygonum speciosum*, *Caltha palustris*, *Lychnis alpina*, *Alyssum Saxatile*, *Alyssum serpyllifolium*, *Arabis*

alpina, *Arabis muralis*, *Aubrietia Campbelli*, *Asphodeline lutea*, *Cotula barbata*, *Genista Dasy Hill*, *Cytisus candicans*, *Cytisus scoparius*, *Lilium nepalense*, *Lilium Wallichii*, *Iris Clarkei*, *Iris Germanica*, *Iris ensata*, *Sedum coeruleum*, *Aster tricephalus*, *Aster diplostephioides*, *Nirumburgia Hippomanica*, *Smilacina fusca*, *Smilacina oleracea*, *Disporum calcaratum*, *Globularia trichosantha*, *Impatiens tripetala*, *Aster (rotundifolius)*, *Senecio diversifolia*, *Gentiana ornata*, *Gentiana elliptica*, *Potentilla Mooniana*, *Potentilla fulgens*, *Potentilla Kleiniana*, *Anaphalis triplinervis*, *Cymbidium giganteum*, *Cymbidium grandiflora*, *Cymbidium eburneum*, *Cymbidium Devonianum*, *Cypripedium Fairieanum*, *C. venustum*, *Calanthe brevicornu*, *odora*, *Phajus maculatus*.

On the constructive side necessary repairs of glass houses, fountains, conservatory, etc., were done. A tablet was erected in the rock garden which has been named "Sir John Anderson Rock Garden" after the late Governor of Bengal who took particular interest in the development of this portion of the Garden.

The herbarium, as noted in previous years, continued to prove to be a valuable acquisition to the Garden. Such a handy collection of the local flora offers excellent opportunity for provisional study of the East Himalayan plants on the spot. Proper attention to this collection is imperative and further incorporation of species is also essential for making the herbarium materials more useful. Need for exploration in the higher ranges and less known parts is indispensable both for horticultural operations and floristic work. Explorers and botanists from various parts of the world are making laudable attempts to acquaint themselves with the wonderful treasures of Sikkim plants which should better be thoroughly explored in a proper manner by the people of this country. The importance of a local flora of the Sikkim Himalayas cannot be over-emphasised. Steps are being taken for preparation of such a flora at the headquarters. There is much field also for the interested public to utilise in a profitable manner the vegetable resources of this part of the Himalayas.

Fifty-nine thousand eight hundred and five persons visited the Garden during the year. This includes some of the distinguished visitors from overseas who came to India as delegates to the Silver Jubilee Session of the Indian Science Congress Association held jointly with the British Association in Calcutta. This is the first occasion when Sir Arthur Hill, Director, Royal Botanic Garden, Kew, visited the Garden on the 30th and 31st December 1937. He was much interested in some of the species growing in this Garden.

The Curator and the staff of the Lloyd Botanic Garden as usual spared no pains to make the Darjeeling Flower Show a success. The Curator's co-operation with the writer in the preparation of a "Guide Book" of the Lloyd Botanic Garden, Darjeeling, is much to be appreciated.

Finance.—Out of an allotment of Rs. 15,678 under all heads, Rs. 15,285 were spent, leaving a saving of Rs. 393.

Staff.—Mr. S. N. Basu was Curator throughout the year.

K. BISWAS,

Miscellaneous.

RESOLUTION—No. 18704 Misc.

Calcutta, the 8th September 1938.

READ—

Memorandum No. 2080 R.G., dated 23rd June 1937, from the Commissioner of the Burdwan Division, submitting the final report on the relief operations in the district of Burdwan during the year 1936.

2. The district of Burdwan has an area of 2,705 square miles with a population of 1,575,699 and lies between the Ajay, the Bhagirathi and the Damodar rivers. The eastern and western portion of the district differ completely from each other in physical features. The eastern portion, which covers more than two-thirds of the district, is a delta, the southern end of which approaches the sea-board. Fertile and densely populated, it presents the usual monotonous appearance of Bengal rice fields and has no mineral wealth. Towards the west the country assumes a more uneven character and resembles a promontory jutting out from the hill ranges from Central India. It is rich in mineral wealth and the subdivision of Asansol is dotted with coal mines.

3. There had been irregular and scanty rainfall for three successive seasons which affected prejudicially the condition of the crops in the areas not served by the Damodar Canal, but good crops and in some instances bumper crops were obtained in the canal areas covering about 400 square miles. In 1935 the country on the right and left banks of the Damodar was flooded, and crops in a number of fields were destroyed by a thick deposit of sand. The flood water facilitated transplantation in other areas, but the failure of the

rains in September damaged the *aman* crops; and except in the canal areas the yield of *aman* paddy was very small, even in areas near the river.

4. In the areas unaffected by flood the failure of crop was still greater. The rainfall in July and August was scanty and irregular, so that transplantation was retarded, and the failure of the September rain was so complete that the *aman* crop was less than one-fourth of the normal. The higher lands yielded only a little straw and no grain at all, and the crop there was only fit for fodder. As usual in times of widespread scarcity, there was contraction of credit, which had to be met by distribution of large sums in agricultural loans. Distress amongst landless labourers gradually became acute, and early in 1936 test works had to be opened. Eventually scarcity had to be declared under the Bengal Famine Code throughout the whole of the Katwa subdivision and in parts of the Sadar and Kalna subdivisions. The total area affected by failure of crops was 1,762.62 square miles of which 1,261 square miles was severely affected. The total population affected was approximately 423,000. The situation began to improve in July and August 1936 when copious rains gave promise of a good harvest. Test works were closed by the end of July and with the harvesting of the early autumn rice gratuitous relief was also restricted. Relief measures finally ceased by the middle of November of the same year.

5. The relief measures consisted of—

- (1) Test works.
- (2) Gratuitous relief.
- (3) Special relief, such as relief to weavers, etc.
- (4) Private works (including works carried on with the help of loans granted under the Land Improvement Loans Act).
- (5) Distribution of agricultural and land improvement loans.

6. **Test works.**—Test works were started on 5th February 1936 and continued till 27th July 1936. The works, all of which were carried out by the district board, included construction of new roads, improvements to existing

roads, construction of new bundhs, repairs to the old and abandoned embankments of the Ajay river and re-excavation of old irrigation tanks. In the selection of works, preference was given to improvements in irrigation. Some 40 tanks and bundhs were re-excavated as test relief works at Government cost.

The total cost of these works amounted to Rs. 1,40,026 and the number of units relieved was 11,90,279. The average cost per unit was about 1 anna 10 pies.

[Note.—A 'unit' = one person relieved for one day.]

7. Gratuitous relief.—Gratuitous relief was given in accordance with the procedure laid down in Chapter VIII of the Famine Code out of the grant sanctioned by Government. It was distributed through Union Relief Committees at the rate of 3 pice or $7\frac{1}{2}$ chitaks of rice for adults and 2 pice or 5 chitaks of rice for children. A total sum of Rs. 73,787 was spent on this account and the number of units relieved was 14,63,359.

Relief was also given in the form of free distribution of cloth. Altogether 7,018 pieces of cloth were distributed free to indigents of all classes. Of this number 1,638 pieces were manufactured by weavers of Katwa who were relieved by an advance of Rs. 2,000 from the funds of the District Board. Another 5,380 pieces were distributed by the Jamalpur Weaving Society.

Anot of Rs. 1,210 was spent in buying products of the Jamalpur weavers, thus relieving 1,210 families.

Both in Bengal and in the East Indian and Eastern provinces, concession rates were given on cloth and other commodities required by recognised relief organisations.

women were also given to indigent huskies to enable them to carry on paddy at their homes. A sum of Rs. 10,000 was advanced by the district board for this purpose. The total number of persons relieved under this scheme was 570.

8. Relief to "bhadralog."—The "bhadralog" class presented a special problem. It was realised that the giving of free doles to able-bodied persons without requiring them to do any work in return was not desirable, but no suitable work could be obtained for this

class of persons who thought it beneath their dignity to join the test works with the ordinary labourers. Those of them who held land were accommodated with agricultural loans. Others who would not do any earth work, but who were in great distress, received relief from a sum of Rs. 13,050 obtained from the District Charitable Relief Committee for this purpose. Relief was given to these persons at the rate of Rs. 5 per family.

9. Loans.—A total amount of Rs. 7,89,900 was advanced under the Agriculturists' Loans Act in the years 1935-36 and 1936-37 and Rs. 71,230 were distributed under the Land Improvement Loans Act. The latter type of loan was particularly useful in the Kalna subdivision where a large number of private works were financed, affording employment to a considerable number of persons.

Scarcity of water for men and animals was very keenly felt throughout the distressed areas. To relieve this, an allotment of Rs. 7,550 was made for tube-wells and ring-wells in places where they were most needed.

10. Mr. O. M. Martin, C.I.E., I.C.S., the then Additional Commissioner, Presidency and Burdwan Divisions, supervised the relief operations. He visited the district several times and toured in the affected tracts.

11. In the opinion of Government the relief measures carried out in this district were adequate and were conducted with efficiency and economy. Credit is due to all those who worked earnestly to achieve this satisfactory result. The District Officer, Mr. R. H. G. Johnston, I.C.S., worked with great energy and ability in conducting the relief operations. The cordial thanks of Government are due to the district board of Burdwan for their wholehearted co-operation in relief measures, and in particular to the Chairman, Raja Bahadur Moni Loll Singh Roy, C.I.E., who worked heart and soul for the success of the relief operations and to the District Engineer Babu Promotha Nath De whose energy and devotion to duty were an example to all. Thanks are also due to the two Vice-Chairmen of the district board, to the presidents and members of union boards, to various charitable organisations and to all private persons who generously contributed to the efficient and successful working of the relief operations.

The cordial thanks of Government are also due to the British Indian Association for their co-operation in relief measures and in the creation of the 1936 West Bengal Scarcity Relief Fund, and in particular to their President, Maharajadhiraja Bahadur Sir Bijay Chand Mahtab, G.C.I.E., K.C.S.I., I.O.M., and Messrs. P. N. Singh Roy, S. K. Mitter and A. C. Daniell, Joint Honorary Secretaries of the fund, and to Mr. H. J. Fitzpatrick, Honorary Treasurer, for the work done by them in connection with raising of the fund for the relief of distress. The Governor is pleased to direct that the good work done by the following officers be recorded:—

- (1) Babu Aswini Kumar Maitra, Subdivisional Officer, Katwa.
- (2) Mr. V. C. Dutt, Deputy Collector and Relief Officer.
- (3) Babu Sudhanna Kumar Guha, Sub-Deputy Collector and Circle Officer, Kalna.

FINAL FORECAST OF THE JUTE CROP, 1938.

Consolidated statement for Bengal, Bihar, Orissa and Assam.

Area.—The revised estimated area for the four provinces is 3,074,100 acres, an increase of 185,500 acres as compared with the revised final Forecast for 1937. The total decrease, as compared with the acreage in the Preliminary Forecast for 1938, is due to revision in the estimates.

Yield.—It is estimated that the crop will yield 6,695,550 bales of jute, i.e., less than last year's total (revised) by 1,984,950 bales.

DEPARTMENT OF AGRICULTURE, BENGAL.

FINAL FORECAST OF THE JUTE CROP OF BENGAL, 1938.

[NOTE.—On an average of the five years ending 1936-37, the area under jute in Bengal, to which this forecast relates, represents some 83·9 per cent. of the total area under jute in British India.]

Season.—After the issue of the Preliminary Forecast, conditions continued to be generally unfavourable for the growth and development of the crop in most parts of the province. Incessant rainfall in some areas and floods in others caused serious damage in most of the districts. The Deshi crop in particular was badly affected from both causes. In most of the jute-growing tracts, including the Deshi, rainfall has been much above the normal.

Condition of the Crop.—As noted above, areas in many districts have been totally destroyed either by incessant rainfall or heavy floods. Both these causes have also very considerably affected the outturn. This is particularly so in the Deshi districts and some of the North Bengal tracts.

Area of the Crop.—The area under jute is estimated to be 25,21,500 acres as against 22,08,900 acres (revised) in 1937.

Outturn.—As in previous years, the percentage figures are calculated on the basis of Divisional normals which remain as follows:—

	Bales per acre.
Dacca and Chittagong Divisions	... 3·7
Rajshahi Division	... 3·5
Presidency and Burdwan Divisions	... 3·2

The total outturn of the crop is estimated at 57,55,450 bales as against 70,71,600 bales last year.

Stocks.—It is reported that approximately 2 lakhs of bales remain in the districts in the hands of the cultivators.

DEPARTMENT OF AGRICULTURE, BIHAR.

FINAL FORECAST OF THE JUTE CROP OF BIHAR, 1938.

[NOTE.—On an average of the five years ending 1936-37, the area under jute, to which the Bihar forecast relates, represents about 8·6 per cent. of the total area under jute in British India.]

Acreage.—The final district returns of the six jute-growing districts of the province show an area under jute of 315,500 acres as against the last year's area of 445,000 acres. The decrease is due to excessive rainfall and floods in the most important jute-growing district of Purnea.

Weather conditions.—In March scanty showers fell in Purnea and there was no rain in the remaining jute districts. In April light rain fell in all jute-growing districts but the fall was below the normal everywhere. In May the rainfall was moderate in all jute districts, it being above the normal everywhere. The rainfall in June was excessive in all these districts except the Santal Parganas where the fall was only slightly above normal. In July again the rainfall was excessive in Purnea and above the normal everywhere except the Santal Parganas where it was below the normal. The rainfall in August was general in all jute districts. The weather and rainfall have not been favourable in Darbhanga and the most important jute-growing district of Purnea. It was however favourable in Champaran and fair in the remaining districts.

Outturn.—In the district of Purnea the outturn of the crop has been estimated at 40 per cent. of the normal. Champaran reports 95 per cent. Muzaffarpur, Darbhanga, Bhagalpur and the Santal Parganas report 78, 32, 60 and 32 per cent. respectively.

Accordingly I estimate that the outturn this year will be 41 per cent. of the normal. Enquiries about the normal outturn per acre have shown that the normal outturn per acre is $3\frac{1}{2}$ bales, and on this basis the gross outturn on 315,500 acres estimated to be under jute in this province comes to 435,600 bales, against 896,400 bales last year. Adding 25,000 bales, the estimated imports from Nepal, the forecast figure for Bihar comes to 460,600 bales.

DEPARTMENT OF DEVELOPMENT, ORISSA.

FINAL FORECAST OF THE JUTE CROP OF ORISSA, 1938.

[NOTE—On an average of the five years ending 1936-37, the area under jute to which the Orissa forecast relates represents about 0·7 per cent. of the total area under jute in British India.]

Acreage.—It has been found on enquiry that jute is grown also in district Puri to a small extent. The figures of this district have been incorporated in the present forecast.

Since the preparation of the preliminary forecast there has been an increase in area in district Balasore due to fresh sowing. In the Kendrapara subdivision of district Cuttack the crop has failed in certain parts on account of want of timely rainfall. The areas under the crop have been resown with paddy. This explains the fall in the area under the crop in the district as reported in the preliminary forecast.

The final returns show an area of 11,900 acres under the crop against 15,600 in the last year. The decrease is mainly due to unfavourable weather conditions at the time of sowing in district Cuttack.

Season.—The weather conditions were not very favourable at the time of sowing specially in the district of Cuttack. There was also failure of timely rainfall after sowing in parts of the Kendrapara subdivision of this district.

Outturn.—In districts Cuttack and Balasore the outturn has been estimated at 68 and 86 per cent. of the normal. District Puri expects a normal outturn.

According to the estimates of the District Officers, the outturn of the crop this year will be 71 per cent. of the normal against 63 per cent. of the last year. On the basis of $3\frac{1}{2}$ bales as the normal outturn per acre the gross yield on 11,900 acres estimated to be under cultivation this year comes to 28,200 bales against 32,900 bales of the last year.

DEPARTMENT OF AGRICULTURE, ASSAM.

FINAL FORECAST OF THE JUTE CROP OF ASSAM, 1938.

[NOTE.— On the average of the five years ending 1936-37, the area under jute in Assam represents some 5·7 per cent. of the total area under jute in British India.]

1. **Season.**—As indicated in the preliminary forecast the weather was not favourable for the crop. In July there appeared a high flood in the Assam Valley which caused considerable damage to the crop in many districts of which Goalpara was the worst sufferer, where the crop had been practically destroyed. The crop in Barpeta subdivision (Kamrup) also was severely damaged. Some damage by insects too was reported from certain districts.

2. **Area.**—The area has been estimated by the Deputy Commissioners to be 225,200 acres as compared with last year's actual area of 219,100 acres and this year's preliminary forecast of 217,700 acres. The areas reported in the preliminary forecast have been revised in four districts.

3. **Outturn.**—The outturn per acre has been estimated to be 57 per cent. of the normal against 85 per cent. (revised) of last year. Taking 3·5 bales of 400 lbs. each of jute fibre as the normal yield per acre, the total produce of the province this year amounts to 451,300 bales against 654,600 bales (revised) of last year, or a decrease of about 31 per cent.

	Acre.	Acre.	Acre.			Bales.	Bales.		
Cachar (Plains)	200	200	200	70	70	500	500	Middle of August. Early.	Weather condition from June to August was on the whole fair for the crop but heavy rainfall in May caused the outturn to fall below the normal.
Sylhet ..	13,000	37,200	42,100	85	70	110,700	103,100	Middle of August. Normal.	The increase in area is due to actual survey of jute areas in the district. Some damage to the crop by insects and heavy rains was reported from places. Early rains also checked the growth of the crop to a considerable extent. These account for the low estimated outturn.
Goalpara ..	60,000	59,300	59,300	95	80	197,200	62,300	First part of June. Early.	The weather in June and August was not favourable for the crop. The recent flood has destroyed the crop almost everywhere in the district and hence the outturn is estimated to be abnormally low.
Kamrup ..	39,800	47,800	44,200	83	50	138,900	77,300	First week of August. Normal.	The decrease in area is due to unfavourable weather at sowing time. The flood of July also caused severe damage to the crops specially in the Barpeta Sub-division. This accounts for the low outturn.
Darrang ..	12,100	10,300	11,000	85	80	30,600	33,300	Middle of July. Normal.	The increase in area is due to gradual extension of cultivation. The weather was on the whole fair but local flood and insects caused some damage to the crop and hence the outturn is estimated to be below the normal.
Nowgong ..	50,000	58,600	60,200	80	75	164,100	158,900	Ditto ..	The increase in area is due to extension of cultivation. The weather was generally favourable but floods in June and July caused serious damage to the crop in low lying areas. Insects also caused some damage. These account for the low outturn.
Sibsagar ..	300	100	400	90	70	1,300	1,000	Last week of July. Normal.	The weather was generally favourable but the flood of July caused considerable damage to the crop and hence the outturn is estimated to be low.
Lakhimpur ..	700	1,100	2,700	91	90	3,500	8,500	Middle of July. Early.	The increase in area is due to extension of cultivation by immigrants. The weather was favourable for the crop but flood caused some damage in places and hence the outturn falls below the normal.
Garo (Plains). Hills	5,000	4,200	4,200	53	50	7,300	7,300	Last part of July. Normal.	The weather was not favourable for the crop. Flood also caused damage in places. These account for the low outturn.

- (2) No work in a higher seam or section shall be done over an area in a lower seam or section which may collapse unexpectedly.
- (3) No seam in a mine shall be worked in more than one section without the permission in writing of the Chief Inspector and under such conditions for ensuring the stability and safety of the workings as he may specify.
- (4) Every application for permission under sub-regulation (3) shall be accompanied by a plan showing the proposed layout of the workings, the thickness of the seam, the depth of the seam from the surface, the rate and direction of dip, the dimensions of pillars and galleries in each section and the thickness of the parting between the sections.
- (5) Where a seam in a mine is worked in two or more sections every such section shall be deemed to form a separate seam and the parting left between any two such sections shall not be less than 10 feet in thickness:

Provided that an Inspector may by order in writing—

- (a) permit a smaller thickness of parting, if he is of opinion that the stability of the workings will not be affected thereby, or
- (b) require a greater thickness of parting, if he is of opinion that such greater thickness is necessary for the safety of the workings."

V. After regulation 80, the following regulation shall be inserted, namely:—

- "80A. If in any mine it appears to an Inspector authorised in this behalf in writing by the Chief Inspector that the provisions of regulation 77, regulation 78 or regulation 80 or of any order issued under any of those regulations have not been complied with, he may give notice in writing to the owner, agent or manager of the mine requiring him to take such protective measures, within such reasonable time, as he may specify in the notice; and in case of non-compliance, the Inspector may, by order in writing addressed to the person to whom the notice was given, prohibit the extraction of coal in any part of the mine until the requirements specified in the notice are complied with to his satisfaction."

NOTIFICATION

No. 896L.—16th September 1938.—The Governor having been pleased to order, under rule 19 of the Bengal Legislative Council Rules, 1920, as modified and adapted for the Bengal Legislative Council and for the Bengal Legislative Assembly, respectively, under section 84(3) of the Government of India Act, 1935, the publication of the following Bill, together with the Statement of Objects and Reasons which accompanies it, in the *Calcutta Gazette*, the Bill and the Statement of Objects and Reasons are accordingly hereby published for general information:—

**THE BENGAL TENANCY (THIRD AMENDMENT) BILL,
1938.**

**A
BILL**

further to amend section 52 of the Bengal Tenancy Act, 1885.

WHEREAS it is expedient further to amend section 52 of the Bengal Tenancy Act, 1885 in the manner hereinafter appearing ;

VIII of
1885.

It is hereby enacted as follows :—

Short title.

1. This Act may be called the Bengal Tenancy (Third Amendment) Act, 1938.

Amendment of
section 52 of
Act VIII of
1885.

2. In section 52 of the Bengal Tenancy Act, 1885—

(1) in clause (a) of sub-section (1), after the words "without any reduction of the rent being made" the following proviso shall be inserted, namely :—

" Provided that no Court shall decree any addition of rent under this clause unless it is satisfied that there has in fact been an increase in the actual area of the tenure or holding since the rent previously paid was settled ;" and

(2) after sub-section (1) the following sub-section shall be inserted, namely :—

" (1A) In determining in a suit under clause (a) of sub-section (1) whether there has been an increase in the actual area of the tenure or holding, the Court shall inquire as to whether the present areas of other tenures or holdings in the vicinity which were settled at or about the same time or on the same standard of measurement as the tenure or holding in suit, show increases in area compared with the area originally settled similar to that alleged in respect of the tenure or holding in suit : if such similar increases are found to exist, it shall be presumed that there has in fact been no increase in the actual area of the tenure or holding in suit since the rent previously paid was settled."

Application.

3. (1) Notwithstanding anything contained in any other law—

(a) the provisions of section 52 of the Bengal Tenancy Act, 1885 as amended by this Act shall apply to all suits instituted thereunder on or after the date of the commencement of this Act, and also, subject to such conditions as may be prescribed, to all suits under clause (a) of sub-section (1) of that section which are pending on the said date, and

(b) if a decree has been passed before the commencement of this Act in a suit under the said clause instituted on or after the twenty-seventh day of August 1937, the Court shall, on application accompanied by the prescribed fee and made within six months from the commencement of this Act by a tenant against whom such decree has been passed, set aside the decree and restore and rehear the suit in the prescribed manner and in accordance with the provisions of the said section as amended by this Act.

(2) In this section "prescribed" means prescribed by rules made by the Provincial Government hereunder.

STATEMENT OF OBJECTS AND REASONS.

Section 52 of the Bengal Tenancy Act provides for an increase of rent where it can be proved that there has been an increase of area of a tenure or holding. Government have reason to believe that the provisions of this section have been abused in the following manner: Settlement was made on a cubit, say, of 22 inches in the past. When the record-of-rights was prepared and the standard cubit of 18 inches was applied in measuring the land, there was an apparent, but not real, increase in the number of *bighas* in a tenure or holding. With the help of misleading evidence it is often proved that in fact the standard of measurement which had been used at the time of the Settlement was an 18 inch cubit. In order to prevent this kind of fraud the present amendment of section 52(I) has been framed. It is not intended that a landlord should be debarred from obtaining additional rent for additional area which in fact exists owing to gradual encroachment on his *khas khamar* land or on neighbouring plots.

It will also not debar the case where additional area has been gained through alluvial action or the drying up of swampy ground contiguous to a tenure or holding. In either of these two latter cases a landlord may avail himself of the provisions of section 52 of the Bengal Tenancy Act, 1885 although he is not bound to do so as it has been held in the Calcutta High Court that he is entitled to sue in the Courts under the general law of the land irrespective of the Bengal Tenancy Act for additional rent in cases where it can be demonstrated that a particular area of land has been added to the original tenure or holding.

The Bill also provides that by application to the Courts tenants against whom suits were instituted under section 52 after the 27th of August 1937, [the date of publication of the Bengal Tenancy (Amendment) Bill, 1938] may, whether a decree has been passed or not, obtain a re-opening of the case in order that it may be decided under the provisions of section 52 as sought to be amended by the present Bill. This would naturally entitle both sides to amend their original pleadings if they desired; and to this end rule-making power is sought in order not to encumber the Act with small matters of procedural detail which will only be of temporary effect.

The following Bill* was introduced in the Legislative Assembly on the 8th August, 1938 —

L. A. BILL No. 12 of 1938

1 Bill to amend the criminal law.

WHEREAS it is expedient to supplement the criminal law by providing for the punishment of certain acts prejudicial to the recruitment of persons to serve in, and to the discipline of, His Majesty's Forces, It is hereby enacted as follows:—

Short title,
extent and
commencement.

1. (1) This Act may be called the Criminal Law Amendment Act, 1938.

(2) It extends to the whole of British India.

(3) It shall come into force at once in the Punjab; and it shall come into force in any other province on such date as the Central Government may, by notification in the official Gazette, appoint in this behalf for the province.

Dissuasion
from enlistment
and instigation
to mutiny or
insubordination
after enlistment.

2. Whoever—

(a) wilfully dissuades or attempts to dissuade the public or any person from entering the military, naval or air Forces of His Majesty, or

*The Governor General has been pleased to give the previous sanction required by section 108 (1) (c), read with section 313 (4) (a) of the Government of India Act, 1935, to the introduction in the Legislative Assembly of this Bill.

- (b) without dissuading or attempting to dissuade any person from entering such Forces, instigates the public or any person to do, after entering any such Force, any thing which is an offence punishable as mutiny or insubordination under section 27 of the Indian Army Act, 1911, or sections 10 to 12 and 14 to 17 inclusive of the Naval Discipline Act as applied to the Indian Navy by the Indian Navy (Discipline) Act, 1934, or sections 35 to 37 inclusive of the Indian Air Force Act, 1932, as the case may be,
- VIII of 1911
XXXIV of 1934.
XIV of 1932.

shall be punishable with imprisonment for a term which may extend to two years, or with fine, or with both.

Exception 1.—The provisions of clause (a) of this section do not extend to comments on or criticism of the policy of Government in connection with the military, naval or air Forces, made in good faith without any intention of dissuading from enlistment.

Exception 2.—The provisions of clause (a) of this section do not extend to the case in which advice is given in good faith for the benefit of the individual to whom it is given, or for the benefit of any member of his family or of any of his dependants.

STATEMENT OF OBJECTS AND REASONS.

A large number of public speeches designed to dissuade persons from enlisting in the Defence Forces or, in the alternative, to incite would be recruits to commit acts of mutiny or insubordination after joining those Forces have come to notice during the past eighteen months. The object of the speakers is clearly not the spread of pacifism, but to dissuade would be recruits from taking part in any war in which the British Empire may become engaged. The Bill is designed to penalise these activities.

MR. RAJI,

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 8th August, 1938:—

L. A. BILL No. 14 OF 1938.

A Bill further to amend the Indian Emigration Act, 1922.

WHEREAS it is expedient further to amend the Indian Emigration Act, 1922, for the purpose hereinafter appearing; It is hereby enacted as follows:—

VII of
1922.

Short title.

1. This Act may be called the Indian Emigration (Amendment) Act, 1938.

Amendment of section 24, Act VII of 1922.

2. In sub-section (2) of section 24 of the Indian Emigration Act, 1922 (hereinafter referred to as the said Act),—

VII of
1922.

- (a) the word "and" at the end of clause (j) shall be omitted;
- (b) after clause (j) the following clause shall be inserted, namely:—
- “(k) the issue of the permits referred to in sub-section (1) of section 30A; and”;
- (c) the existing clause (k) shall be re-lettered clause (l).

Insertion of new section 30A in Act VII of 1922.

3. After section 30 of the said Act the following section shall be inserted, namely:—

Power to prohibit departure by sea from British India for the purpose of unskilled work.

- “30A. (1) The Central Government may, by notification in the official Gazette from a date and for reasons to be specified in the notification, prohibit all persons or any specified class of persons from departing by sea out of British India to any specified country beyond the limits of India for the purpose of unskilled work unless possessed of a prescribed permit or otherwise exempted by general or special order of the Central Government from the provisions of the notification.
- (2) Every notification issued under this section shall be laid before both Chambers of the Central Legislature as soon as may be after it is made.
- (3) Whoever departs or attempts to depart out of British India in contravention of a notification issued under sub-section (1) shall be punishable with the punishment provided for an offence under sub-section (1) of section 25.”

STATEMENT OF OBJECTS AND REASONS.

Under section 13 (1) of the Indian Emigration Act, 1922, the Governor-General in Council may prohibit all persons or any specified class of persons from *emigrating* to any specified country for the purpose of unskilled work. By virtue of the definition of the word 'Emigrate' in section 2 (1) of the Act the power given by section 13 (1) is restricted to persons under contract or assisted to depart. It has been found that the lack of power to regulate the total flow of emigration for unskilled work, whether assisted or voluntary and whether under contract or not, may operate to the detriment of Indian communities overseas, particularly in times of economic depression. The present Bill is intended to remedy the defect.

No. 6501Ind.—20th September 1938.—The following revised rules for (1) the grant of State Technical Scholarships from Bengal and (2) the guidance of the Government of Bengal Technical Scholars in Europe, are published for general information, in supersession of those issued previously.

H. GRAHAM,

Secy. to the Govt. of Bengal.

Rules for the grant of State Technical Scholarships from Bengal.

Prefatory Remarks.—Prior to the introduction of the Reforms, the Government of India controlled the grant of Technical scholarships tenable by statutory natives of India for study in Europe (which term also includes America) and four such scholarships were allotted to Bengal at one time. With the Reforms, these scholarships have been provincialised as far as they relate to provincial subjects as classified in the Devolution Rules. The Rules regulate the grant of such scholarships from Bengal and supersede all the previous Rules of the Government of India and this Government on the subject.

The following general principles will govern the grant of these scholarships:—

- (i) Technical and practical training should be provided in India whenever possible, and training overseas should be reserved for students who have exhausted the facilities for such training in India and are in the best position to profit by further experience abroad.
- (ii) Government scholars should only be sent out of India for a training in those subjects for which there is a real demand but no adequate provision in the country; and such scholars should be very carefully selected, only those being sent abroad who have been actually associated with practical industries in Bengal and are able to produce evidence that they have taken up such industries as their future career and, therefore, are likely to derive most advantage from such scholarships.

Rule 1.—The number of Technical Scholarships to be awarded by the Government of Bengal in a year will be decided with reference to the funds available during the year.

Rule 2.—The scholarships should ordinarily be for two years. This period may be extended up to five years, if the High Commissioner for India recommends that the extension is indispensably necessary for the completion of the scholar's training. The application for such extension should be made six months before the expiry of the existing scholarship. Where necessary, the period of scholarships will be preceded

by a practical training in a Workshop, Factory or Mine in India, as the case may be, for not less than one year and succeeded, where feasible, by one year's practical work on return.

Rule 3.—The scholarships will ordinarily be tenable in Great Britain, but when necessary facilities for training in a particular subject cannot be obtained in that country, the scholarship may be made tenable elsewhere.

Rule 4.—These scholarships will not be given for Law, Medicine, Forestry, Veterinary Science, Agriculture, Civil Engineering (other than Sanitary and Municipal Engineering) or Geology. Enquiry should first be made from the office of the High Commissioner in advance as to the facilities available for training. Certain suggestions regarding the standard qualifications required for training in particular industries for which scholarships will be awarded are incorporated in Appendices I and IA to these Rules.

Rule 5.—The subjects for the award of scholarships will be selected by the Board of Industries, Bengal. After the subjects are approved by Government in consultation with the High Commissioner, the scholarships will be advertised with a view to secure the best available candidates. The Board will also perform the following functions in this connection, viz.—

- (i) selection and recommendation to Government of candidates for appointment as Technical Scholars;
- (ii) making of suggestions to Government regarding the course of training to be followed by the scholars in Europe or elsewhere;
- (iii) advising Government, where necessary, as to the nature of preliminary training which the selected scholars shall undergo for one year before their departure, and of the practical training which it is advisable that they should receive after their return; and, finally,
- (iv) endeavouring, with assistance of local manufacturers and employers, to find employment for the scholars on their return.

Rule 6.—The object for which the scholarships are given is to assist in developing the industries of Bengal. A list of industries for the study of which scholarships will ordinarily be awarded are given in Appendices I and IA.

Rule 7.—The selected candidates must produce—

- (i) satisfactory evidence of good character;
- (ii) medical evidence of physical fitness to undergo a course of study abroad;
- (iii) evidence of educational qualifications of the standard prescribed in Appendices I and IA to these Rules for particular industries or as may be prescribed from time to time for subjects not mentioned therein; and
- (iv) satisfactory evidence of age (which must not exceed 25 years).

NOTE.—In the case of a candidate already resident in the United Kingdom who has applied for a scholarship, the High Commissioner should be consulted before a selection is made and, if necessary, his views should be obtained by cable.

Rule 8.—In special cases, a scholarship of a value to be fixed by Government, not exceeding Rs. 100 per mensem, may be given for preliminary training in India, and in special cases also a scholarship not exceeding Rs. 150 per mensem may be given to a scholar on his return to India, in order to assist him in commencing work in India. When a scholar has had a preliminary training in India, a report on his work and progress should be sent to the High Commissioner.

Rule 9.—As soon as the selection of a scholar has been made by the Government, the Director of Industries as Secretary of the Board of Industries should communicate to the office of the High Commissioner, in the form laid down in Appendix II to these Rules, the notification of award of the scholarships with the names of the scholars selected, their qualifications and proposed courses of study, together with all necessary certificates and testimonials including the students' applications. The special intention of the scholarships should also be mentioned as closely as possible and whether a definite degree or diploma is regarded as essential or not should also be definitely stated, the exact arrangements to be made in each case being left to the discretion of the High Commissioner. Instructions about scholars who begin their training with manual work should reach the High Commissioner by the 1st December and the candidates should reach England by March or April, of the following year. Where the scholar is to commence training with purely academic work, the intimation should reach the High Commissioner by May and the scholar should reach England not later than the middle of September.

Rule 10.—The scholarships carry with them no conditions as to any subsequent career or service under Government, and no expectations of such employment are held out. The Board of Industries in selecting subjects should exercise care, in order to secure that scholarships are only given where there is some prospect of the scholar's obtaining employment in which it will be possible to utilise in India the experience and training he will have gained.

Rule 11.—When a scholar is given a scholarship after his return, the Board should settle the nature of his practical training while he is drawing the scholarship, and should, if they think this fit and practicable, obtain from the new employer a report on the way in which the scholar has progressed during his training, and his value as a technological specialist. In such a case, the scholar should at the end of his period of training receive from the Board a detailed statement of his training.

Rule 12.—The Local Government should receive an annual report from the office of the High Commissioner of the progress made by each scholar in his training.

Rule 13.—The Local Government should, in January of each year, send a return to the office of the High Commissioner, showing how all scholars from the province who have returned since 1910 are employed, and what salaries they are drawing.

Rules for the guidance of the Government of Bengal Technical Scholars in Europe.

1. Every scholar will be required to forward to the Secretary to the High Commissioner for India (Education Department), India House, Aldwych, London, W. C. 2, ordinarily at least one month before

the date of departure from India, the sum of £40 for initial expenses on arrival in the United Kingdom. A scholar will have no claim to the payment of any instalment of his scholarship unless this deposit has been made. The deposit is held at the disposal of the scholar and may be reclaimed as soon as he reaches England to meet expenses of the purchase of clothes or other necessary equipment, but a scholar is advised to leave at least £10 on deposit to be available for emergencies or other expenses not covered by the conditions of the scholarship.

2. A scholar will be provided with a passage from India to the place of study in the United Kingdom, and, as a general rule, is required to travel by the all-sea route from India to England unless he himself elects to pay the cost of the overland journey from Marseilles to London, in which case he may apply for payment of the overland allowance as fixed from time to time by the High Commissioner. The full cost of the overland journey (rail and baggage expenses) shall in no case be refunded to a scholar unless he has been provided by the Government concerned with a steamer ticket to Marseilles and has been expressly instructed to travel overland.

3. Every scholar on reaching England must report himself in person to the Office of the High Commissioner for India (Education Department), India House, Aldwych, London, W. C. 2, and sign the undertaking referred to in Rule 6. He will be required to furnish his private address and to notify immediately any changes thereafter.

4. A scholar who wishes accommodation to be arranged for him on arrival in England should write to the Accommodation Officer, Education Department, Office of the High Commissioner for India, India House, Aldwych, London, W. C. 2, stating by what steamer he is sailing and giving some indication of the type of accommodation which he requires. Every scholar will be required, whenever possible, to reside in the hostel of the University or College where he is pursuing his course, though in special cases the High Commissioner will be prepared to consider applications for permission to live in private lodgings.

5. Every scholar pursuing courses of study or training in the United Kingdom, in Europe or in the United States of America is under the direct charge of the Secretary to the High Commissioner for India (Education Department), with the exception of those at Edinburgh, Cambridge, Glasgow, Manchester, and Oxford, who must follow the instructions given through the following officers, hereinafter referred to as Local Advisers:—

Edinburgh—The University Adviser to Indian Students, Department of Chemistry, The University, King's Buildings, Edinburgh.

Cambridge—The Secretary, Inter-Collegiate Indian Students' Committee, 22, Fitzwilliam Street, Cambridge.

Glasgow—The Local Adviser to Indian Students, The University, Glasgow.

Manchester—The Local Adviser to Indian Students, College of Technology, Manchester.

Oxford—The Secretary, Delegacy for Oriental Students, Indian Institute, Oxford.

All communications regarding courses of studies or training, payment of fees or other matters connected with the scholarship must be addressed, either to the Secretary to the High Commissioner for India (Education Department) or in the case of scholars at Edinburgh, Cambridge, Glasgow, Manchester, or Oxford, to the Local Adviser concerned. Scholars are not permitted to communicate direct with their Provincial Government in India in any matter affecting their scholarships.

6. Every scholar will be expected to consult the Secretary to the High Commissioner (Education Department) or his Local Adviser regularly in regard to his course of study or training. He must submit, either direct or through his Local Adviser, within one month after the beginning of his University, College or other training, a statement for the approval of the High Commissioner showing the exact course which he is pursuing. The High Commissioner will prescribe the course of study or training considered necessary to fulfill the purpose for which the scholarship has been awarded, and every scholar must obey all instructions regarding his course of study or training which he may receive either direct from the Secretary to the High Commissioner (Education Department) or from his Local Adviser. The course of study which has received the sanction of the High Commissioner may not be changed without his approval, and no additional course or subject of study or training may be undertaken without his prior sanction. A scholar will not be permitted, without the previous sanction of the High Commissioner, to enter for any examination not forming a normal portion of his sanctioned course. He will be required to give a written undertaking that he will at once and without discussion of possible alternatives devote himself exclusively to the course of study and training prescribed for him and that he will not delay or neglect his prescribed course in anticipation of orders regarding possible alternatives.

7. A scholar sent to this country for training in technical or industrial subjects will be required to undergo practical training under such conditions as may be prescribed by the High Commissioner. Whilst undergoing practical training, the scholar must keep, in a book supplied by the Education Department of the Office of the High Commissioner, a concise diary of his work. This diary, endorsed by the authorities under whom the scholar is working, must be submitted at the prescribed date to the Secretary to the High Commissioner (Education Department), either direct or through the Local Adviser concerned.

8. A scholar undergoing practical training in works or in such professional subjects as Veterinary, Medicine, &c., will be entitled to three weeks' leave each year and must obtain the approval of the authorities under whom he is working and of the High Commissioner to the exact dates on which he proposes to take such leave. He must also submit at least two months in advance a full statement of his proposals for practical training during the vacations. A scholar attending university or college courses who proposes to spend his vacations on the Continent must submit his plans for the approval of the High Commissioner not less than one month before the beginning of the vacation.

9. In the absence of any special instructions from the Government concerned, scholarship allowance will be payable from the date on

which the scholar reports his arrival in person at the Office of the High Commissioner until the expiration of the full period for which it has been granted or extended or to such earlier date that the High Commissioner may determine having regard to the date at which the sanctioned course of study or training has been completed. Scholarship allowance will not be paid beyond the date of the sailing from London of the steamer on which the passage has been booked, except as provided in Rule 21.

10. Subject to a due compliance with the Rules, each scholar will be paid his annual stipend quarterly in advance. A first instalment to cover a full quarter will be paid as soon as possible after the scholar has arrived and has signed the necessary declaration on the form prescribed for the purpose. Three months after the date of arrival the amount to the ensuing official Quarter Day* will be paid to the scholar either direct or through the Local Adviser. Subsequent payments will be made in advance, on or after each official Quarter Day. It should, however, be understood that the High Commissioner (or the Local Adviser on his instructions) has full discretion to disburse the annual allowance of any scholar in such instalments as he may consider desirable.

11. Each scholar must submit, not less than 14 days before the date on which his scholarship instalment falls due, an application on a prescribed form endorsed with a certificate of satisfactory conduct and progress from the University, College or Works authority.

He will also be required to furnish annually on a prescribed form, copies of which will be supplied, a full statement of the course of study or training which he has pursued during each year ending 30th September. The instalment of scholarship allowance due on 1st October of each year will not as a general rule be issued until this annual report has been received. It should, however, be noted that the High Commissioner at his discretion may require a report on a scholar's work or conduct at any time.

12. The allowance of a scholar in receipt of wages whilst undergoing practical training will be reduced by a corresponding amount.

13. Advances on the quarterly instalments of scholarship allowance will not as a general rule be granted, except in respect of (a) caution money payable to Universities or Colleges, and (b) purchase of expensive instruments essential for the scholar's sanctioned course of study or training. Any advances thus sanctioned will be recoverable from the quarterly instalments of scholarship spread over a total period not exceeding one year.

14. The special attention of every scholar is drawn to the fact that no claim for payment of any expenditure whatsoever can be admitted unless the scholar has obtained previous sanction from the High Commissioner.

15. Scholars at Oxford and Cambridge will be required to meet from their scholarship allowance all their expenses, including university or college fees, except journeys to and from their place of study on arrival from India and on departure to India. A Language

*The official Quarter Days are 1st January, 1st April, 1st July, 1st October.

scholar at Oxford or Cambridge (i.e., a scholar pursuing research in Arabic, Persian, or Sanskrit) may, however, be granted travelling expenses from place of study, when going abroad, where such visits are certified as essential to his studies by the professor concerned and are sanctioned by the High Commissioner.

16. For scholars (other than those at Oxford or Cambridge), charges for university and college fees, including membership of the Student Union or equivalent society, premium for practical training facilities and the necessary travelling expenses of scholars by second class, or by third class if no second be available, shall, if sanctioned in advance, be defrayed by the High Commissioner. A scholar undergoing professional or technical training may be required at the discretion of the High Commissioner to join the appropriate society or institution, in which case his entrance fees and annual subscriptions will be defrayed by the High Commissioner. A sanctioned premium and university or college terminal or sessional fees will be paid direct to the university, college, or firm concerned by the High Commissioner. Examination fees and subscriptions, &c., to other institutions, where such have been sanctioned by the High Commissioner, will be paid by the scholar himself in the first place and refunded to him on production of the necessary voucher.

17. A scholar who proposes to undertake journeys or tours for the purpose of his course of study or training must submit an application either direct or through his Local Adviser at least 14 days before the date of the proposed visit. The application must be supported by a certificate or recommendation from the professor or head of department under whom the scholar is working that the journey is necessary for the purpose of his work. [*If the proposed visit or tour and estimate of expenses is approved by the High Commissioner, third-class travelling expenses, (second-class on the Continent) will be paid to the scholar on receipt of the claim on the appropriate form, supported by the necessary vouchers, together with halting allowance at the rate authorised, unless otherwise laid down when the journey is sanctioned.]

18. Charges for private tuition, unless specially sanctioned in advance, books, instruments, and medical attendance must be paid by the scholar himself.

19. Unless the conditions under which the scholarship was awarded preclude any extension, a scholar who wishes to apply for the extension of his scholarship must submit an application to the Secretary to the High Commissioner (Education Department), either direct or through the Local Adviser, not less than six months prior to the expiration of the term of tenure. This application should state definitely the purpose for which the extension is desired and should be supported by the recommendations of the university or other authority under whom the scholar is pursuing his course of study or training.

20. A scholarship may be terminated at any time within the discretion of the High Commissioner—

- (a) if the scholar's work and progress be considered unsatisfactory;
- (b) if his conduct prove unsatisfactory; or
- (c) if he fail in health;

*This sentence does not apply to scholars at Oxford and Cambridge.

in which cases, unless the High Commissioner sees reason to the contrary, the scholar will retain his right to a passage to India, provided he returns when instructed by the High Commissioner. Any scholar failing to return to India when instructed to do so by the High Commissioner will forfeit his right to a free passage.

A scholar who resigns his scholarship before the expiration of its tenure for reasons which, in the opinion of the High Commissioner, are not satisfactory, will be held to resign his claim to a return passage to India.

21. A scholar will be entitled to a return passage from the place of study to India. The arrangements for the voyage will be made by the Office of the High Commissioner, and a scholar is not entitled to make his own passage arrangements or to claim an allowance in lieu of a provided passage. At least three months before the termination of his course of study or training the scholar must submit to the Secretary to the High Commissioner (Education Department), either direct or through the Local Adviser, an application for a return passage. The scholar will normally be required to embark from a port in the United Kingdom, but he may be allowed at the discretion of the High Commissioner to join the steamer at Marseilles and will then be paid the overland allowance as fixed from time to time by the High Commissioner. If a scholar is definitely instructed by the High Commissioner to join the steamer at Marseilles, he will be allowed second-class travelling expenses from London to Marseilles and his scholarship allowance will be payable to the date of embarkation from Marseilles (unless it has already expired or been terminated). Travelling expenses in India will not be payable by the High Commissioner.

22. A scholar who desires to defer his return to India after the expiry or termination of his scholarship will, unless the Government concerned desire his return, be allowed to do so provided that the High Commissioner approves the purpose of the deferment and is satisfied that the scholar is in a position to maintain himself during the whole period of the proposed deferment.

23. Each scholar will be given a grant of £5 to meet incidental expenses during the voyage to India. This allowance will not be payable to officers in Government employ who are temporarily holding a scholarship, but whose official pay commences on the termination of the scholarship, nor will it be applicable to the case of a scholar returning to India on appointment to a Government post which entitles him to an advance of pay.

24. A scholar who intends to marry during the tenure of his scholarship must so inform the High Commissioner, who, in consultation with the Local Government concerned, may terminate or suspend the scholarship if he thinks fit in the special circumstances of the case.

NOTE.—In all the above Rules the masculine (he, him) must be understood to include the feminine (she, her).

APPENDIX I.**Suggestions regarding Special Industries.**

I. Engineering.—(i) All Engineering students of whatever branch should receive a year's preliminary workshop course in a mechanical engineer's shop in India.

(ii) Indians who come to the United Kingdom for their College Course should have taken the B.A., B.Sc., or B. Eng. degree and have received a training in Mathematics, Physics, Chemistry and Engineering Drawing of a sufficiently advanced character to enable them to join a second-year class at once; special instruction in Mechanical Drawing and Descriptive Geometry is required, and should be given in India.

II. Mining.—(i) Scholarships in Mining (as distinguished from Geology) shall only be given to men who intend to become Mine Managers or Mining Engineers

(ii) In every case the candidate shall have actually worked for at least one year in an Indian mine—preferably in a paid position.

(iii) A specially strict test of physical fitness shall be imposed on candidates before selection.

(iv) The candidate shall have reached the B.A. or B.Sc. standard in Physics (Theoretical and Practical), Chemistry and Mathematics, Mechanics and Practical Geometry.

III. Mining Geology.—Candidates should possess a knowledge of Economic Geology and some experience of Surveying and Mining Methods.

IV. Metallurgy.—(i) Scholarships should be granted only to men who have had previous experience of metal industries, a knowledge even of primitive processes being valuable; and candidates who lack such experience should be sent for some months to metal works in India before coming to this country for their training.

(ii) If possible, notice should be given beforehand of the branch of Metallurgy that the scholar intends to take upon his return to India.

V. Spinning and Weaving.—Scholars should in all cases have had considerable experience in one or more Indian Mills, preferably through having served in a paid position.

VI. Bleaching and Finishing.—It is almost impossible for Indian students to obtain in England anything more than the training given in Technological Colleges and, in order that they may complete this by practical experience, efforts should be made to secure openings for a few carefully selected men in up-to-date bleaching establishments in India: but in the woollen industry facilities for practical training are now procurable to a limited extent in Europe.

VII. Dyeing.—No scholarship should be granted to a candidate who does not possess some knowledge of the dyeing industry as carried on in India, and who has not reached the B Sc. standard in Chemistry.

VIII. Tanning.—(a) As regards students who aim at becoming owners or managers of tanneries—

- (i) connection with the leather industry is desirable, and a knowledge of Indian methods is essential; and
- (ii) where these conditions are satisfied, high academic qualifications need not for the present be insisted upon; a fair knowledge of Chemistry, Physics and some knowledge of Mathematics and acquaintance with the metric system of weights and measures will suffice.

(b) As regards those who intend to take up scientific research as applied to leather industries—

- (i) the scholarship shall only be granted after the student has received the highest scientific training in India; and
- (ii) he must have shown considerable aptitude for research work.

IX. Chemical Manufactures.—The grant of scholarships for the study of chemical industries in the United Kingdom is of doubtful utility; training in India would be preferable, and, before any such scholarship is granted, inquiry should be made as to the possibility of providing in Europe a complete training in the special branch of industry concerned, full particulars being furnished to the office of the High Commissioner as to candidates' qualifications and prospects of finding employment on their return to India.
